SHOWROOM

Stupire e soddisfare il mercato globale è il nostro obiettivo. Creare superfici accattivanti, di grande valore estetico e tecnologico è ciò che facciamo. Riuscire a dare ai progettisti 360° di libertà mentale è l'effetto di tali premesse.

Our goal is catering to the global market with constant surprises. Creating gorgeous surfaces that combine beauty with technological value: that's what we do. And as a result, we offer designers total freedom of the imagination.

L'amore per la ceramica è alla base della filosofia Powergres. Dalla passione per i dettagli e per lo stile eclettico nascono le nostre collezioni. Il piacere di poter toccare con mano i concept ha dato vita al lounge bar, luogo in cui si respirano stile e pensiero estetico elevati alla massima potenza. Ogni minimo dettaglio parla dell'abilità che Powergres sa dedicare alla creazione di un'atmosfera adatta per la nascita di grandi progetti.

The Powergres philosophy is built around our love for ceramics. A passion for details and for an unique style is what inspires our collections. The pleasure of giving concepts concrete form is what led us to create the lounge bar, infused with the essence of style, it lifts aesthetic concepts to their maximum potential. Each tiny detail demonstrates Powergres's ability to create the right atmosphere for inspiring great designs.

La collezione ICON apre una nuova frontiera del design del paradosso. Le lastre nel formato 60x120 e 60x60 cm di disegno disomogeneo si sposano grazie alla "familiarità" dei soggetti e delle cromie.

Una contrapposizione grafica che viene accentuata dalla superficie naturale matt e anche dalla versione lappata (disponibile su richiesta) di un porcellanato di qualità rettificato e squadrato.

The ICON collection opens a new frontier in the paradox design. Slabs sized 60x120 and 60x60 cm with uneven pattern are matched thanks to the subject and shade "familiarity".

The graphical contrast is further emphasized by the natural matt finish. A glossy lappata version is available on request. The basis of this premium fine stoneware is porcelain.

BALKAN

A tile design collection aimed at surpassing expectations.

BALKAN
60x60 cm

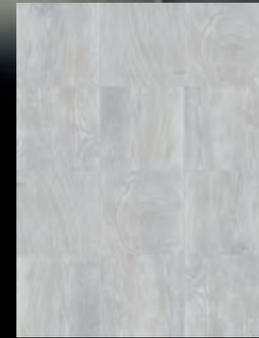

Tra una ripresa della parte classica del legno e l'effervescenza dello stile di macro immagine la collezione Balkan è pura seduzione con una modernità che emoziona. Tradizione, evoluzione, innovazione e un indizio di rivoluzione: Balkan si muove su queste tracce estetiche che fanno da vestito ad una funzionalità sempre più high tech. Balkan è prodotta con la tecnologia del digitale che realizza 16 facce grafiche diverse di 60x60 cm tra una lastra e l'altra.

The Balkan collection is traditional but with a new, modern feel, combining the classical wooden elements and the stylish effervescence of macro image. Tradition, evolution, innovation and a hint of revolution: Balkan moves along these esthetic traces that address an increasingly high tech functionality.

Balkan is manufactured through digital technology, making 16 different patterns of 60x60 cm between the slabs.

Trendy come aggettivo di moda che raggruppa l'essenza delle quattro collezioni. Sta per "chic, esclusivo, creativo, glamorous" ma più di tutto significa contemporaneo.

Strutture materiche, variabilità cromatica, posa a giunto minimo che dà continuità alle superfici, sono rappresentate dalle collezioni Cement, Oxyd, Okia e Posh. Un'avanguardia di stile, un raffinato gusto dell'insolito per la nuova tendenza dell'abitare. Quattro collezioni create per realizzare atmosfere di interni in continua metamorfosi.

Trendy, the most sophisticated combination of the four collection. It means "chic, exclusive, creative, glamorous", but above all it means contemporary. The Cement, Oxyd, Okia and Posh collections structures are all represented by the Cement, colour variability, min. joint application resulting in surface continuity. Avanguard style, a refined taste for the unusual for the modern living trend. The four collections create by Powergres to support any time interior atmospheres that are continuously developing.

Beleza. La perfetta riproduzione della pietra naturale, uno dei materiali principe dell'architettura tradizionale, rappresenta per chi la sceglie non solo un elemento costruttivo ma anche e soprattutto un insieme di significati simbolici, un rimando ai valori del passato un legame con la natura e con le radici più antiche dell'uomo. Pietre eleganti perfettamente riprodotte in lastre con la tecnologia digitale avanzata del Gres Fine Porcellanato in un mix di colori e strutture che fondono perfettamente bellezza artistica e tecnologia.

Beleza. A perfect reproduction of natural stone, one of the traditional Italian architecture's prime materials, is not merely a building material: it is also, indeed and foremost, asset of symbolic associations harkling back to the values of the past, a bond with nature and with man's most ancient roots. Elegant stones slabs perfectly reproduced with Fine Porcelain Stoneware digital advanced technology in a colours and structure mix which blends artistic and technology in perfect harmony.

LA BOCQSTONE DIMOSTRA CHE NULLA È IMPOSSIBILE, RIPRODUCENDO CON FEDELITÀ I LAPIDEI CALCAREI. UN LAVORO DI TECNICA E DI SVILUPPO CHE HA FATTO RIFERIMENTO ALLA FAMOSA PIETRA BLU DEL BELGIO ESTRATTA NELLE VALLI DEL BOCQ (PETIT GRANIT O PIERRE BLEU DE BELGIQUE®) NELLE SUE DIFFERENTI CROMIE NEI COLORI SCURI, CHIARI COME DALL'ORO AL BEIGE FINO AL GRIGIASTRO. PIETRE ELEGANTI CHE SONO SIMILI AL GRANITO FINE, SI DIFFERENZIANO DA QUESTO PER LA PATINA CHE SI CREA CON L'ESPOSIZIONE ESTERNA.

BOCQSTONE PROVES THAT NOTHING IS IMPOSSIBLE, TRULY REPRODUCING LIME STONE MATERIALS. THIS TECHNICAL AND DEVELOPMENT WORK REFERRING TO THE FAMOUS BLUE BELGIAN STONE MINED FROM THE BOCQ VALLEYS (PETIT GRANIT OR PIERRE BLEU DE BELGIQUE®) IN ITS DIFFERENT SHADES IN DARK AND LIGHT COLOURS FROM GOLD TO BEIGE TILL GREYISH. ELEGANT STONES SIMILAR TO FINE GRANITE, JUST DIFFERING FROM IT FOR THE COAT THAT FORMS WITH OUTDOOR EXPOSURE.

La Collezione BOCQSTONE presenta due differenti superfici: una versione Naturale Matt e una Cesellata, trattamento che rende la superficie della lastra perfettamente liscia e al tatto offre una sensazione diversa dalle superfici levigate e/o lappate.

La BOCQSTONE ha quindi riprodotto fedelmente la patina presente sulla superficie della pietra naturale dando maggiore preziosità alla collezione e profondità alla materia del supporto in porcellanato.

The BOCQSTONE collection shows two different surfaces: a matt natural version and a chiseled one; the latter treatment makes the surface perfectly smooth and, touching it, offers a different feeling than polished and/or lapped surfaces.

BOCQSTONE has thus reproduced truly the coat on the surface of the natural stone giving the collection more and more preciousness and depth to the material of the porcelain stoneware support.

CI SONO MOLTE COSE CHE CREANO UN AMBIENTE CALDO E ATTRAENTE, UN MURO DI MATTONI È UNA DI QUESTE. CONSIDERIAMO CHE UN MURO DI MATTONI NON SI ROMPE E NON SI BUCA, COME PUÒ ACCADERE AGLI STRATI DI ROCCIA. IMMAGINIAMO QUANTO DURANO. FACILE DA DECORARE, LA SUA CASA AVRÀ UN LOOK ATTRAENTE E UNICO CHE TUTTI I SUOI AMICI LE INVIDIERANNO. LA COLLEZIONE PUÒ ESSERE ABBINATA ALLA COLLEZIONE KOSMICA.

THERE ARE MANY THINGS YOU CAN DO TO CREATE A LOOK THAT IS WARM AND APPEALING, AND BRICK WALLS ARE ONE OF THEM. CONSIDER THAT BRICK WALLS WON'T TEAR OR GET HOLES IN THEM AS SHEET ROCK CAN. IMAGINE HOW DURABLE THEY ARE. DECORATING IS EASY, AND YOUR HOME WILL HAVE A UNIQUE, BEAUTIFUL LOOK THAT ALL OF YOUR FRIENDS WILL ENVY. THE COLLECTION CAN BE ALSO COMBINED TO KOSMICA COLLECTION.

L'utilizzo di materie vetrose brillanti esalta la proposta decorativa Glitter.

Il listello decorato con la tecnica Glitter crea effetti speciali con decorazioni che creano svariate cromie di colore.

I glitter sono molto versatili. Una gamma di colori importante permette di regalare emozioni decorative uniche.

La tecnica di realizzazione della decorazione è eseguita interamente a mano.

Il prodotto è per utilizzo in ambienti interni, a rivestimento.

Durante la posa occorre avere cura che il materiale non venga sporcato con il cemento o collante. Se ciò dovesse accadere pulire subito con una spugna umida. Non usare abrasivi, acidi o solventi. Non esporre il decoro Glitter direttamente a raggi UV.

The use of bright glassy materials enhances the Glitter decorating proposal.

The mosaic decorated with the Glitter technique creates special effects with decorations resulting in several colour shades.

Glitters are extremely versatile. An exhaustive range of colours enables to achieve unique decorating emotions.

The Glitter application ranges from the decoration of a few tesseras to the realization of unique patterns till reproducing graphics.

The decoration technique is entirely by hand.

A surrounding lacquering can be realized in case of decorations with irregular graphics. The lacquering can be black or white.

The product can be used indoor as wall tiling.

During the installation the material must not get dirty with concrete or adhesive. Should this happen, clean immediately with a wet sponge. Do not use abrasives, acids or thinners. Do not expose the Glitter decoration directly to UV rays.

Each single request is analyzed as for its feasibility and then quoted.

CEM CLUSTER 60x60

La collezione ICON apre una nuova frontiera del design del paradosso. Le lastre nel formato 60x120, 60x60 cm di disegno disomogeneo si sposano grazie alla "familiarità" dei soggetti e delle cromie. Una contrapposizione grafica che viene accentuata dalla superficie brillante.

Su richiesta i differenti disegni sono componibili per taglio in diversi sottomoduli 60x60 30x120 e 30x60. Questa lavorazione viene quotata su richiesta.

The ICON collection opens a new frontier in the paradox design. Slabs sized 60x120, 60x60 cm with uneven pattern are matched thanks to the subject and shade "familiarity". A graphical contrast that is further stressed by the glossy surface of a ground and squared quality porcelain stoneware. Upon request, the different patterns can be combined for the cut in the various sub-modules 60x60 - 30x120 and 30x60 cm. This manufacturing is quoted upon request.

La collection ICON repousse les frontières du design paradoxal. Les plaques de format 60x120, 60x60 cm au dessin irrégulier se marient très bien ensemble, grâce à leur communion de sujets et de couleurs. Le décalage graphique est accentué par la surface brillante d'un grès cérame de qualité, rectifié et coloré. Sur demande, ces différents dessins sont disponibles en compositions de sous-éléments de format 60x60, 30x120 ou 30x60 cm. Devis sur demande pour ce type de composition et de format.

Die Grenzen des neuen Designs des Paradoxes werden mit dieser neuen Kollektion gesprengt: ICON. Die inhomogen dekorierten Platten im Format 60x120 cm passen durch bekannte Themen und Chromatiken trotzdem bestens zusammen. Eine grafische Gegenüberstellung, die durch die brillanten Oberflächen des polierten und perfekt quadratisch zugeschnittenen Feinsteinzeugs erst richtig zum Ausdruck kommt. Auf Anfrage sind die verschiedenen Designvarianten auch in kombinierbaren Unterformaten (60x60 - 30x120 - 30x60 cm) erhältlich. Fordern Sie am Besten ein Angebot für diese Bearbeitung.

WOOD CLASSIC 60x60

La collezione ICON apre una nuova frontiera del design del paradosso. Le lastre nel formato 60x120, 60x60 cm di disegno disomogeneo si sposano grazie alla "familiarità" dei soggetti e delle cromie. Una contrapposizione grafica che viene accentuata dalla superficie brillante.

Su richiesta i differenti disegni sono componibili per taglio in diversi sottomoduli 60x60 30x120 e 30x60. Questa lavorazione viene quotata su richiesta.

The ICON collection opens a new frontier in the paradox design. Slabs sized 60x120, 60x60 cm with uneven pattern are matched thanks to the subject and shade "familiarity". A graphical contrast that is further stressed by the glossy surface of a ground and squared quality porcelain stoneware. Upon request, the different patterns can be combined for the cut in the various sub-modules 60x60 - 30x120 and 30x60 cm. This manufacturing is quoted upon request.

La collection ICON repousse les frontières du design paradoxal. Les plaques de format 60x120, 60x60 cm au dessin irrégulier se marient très bien ensemble, grâce à leur communion de sujets et de couleurs. Le décalage graphique est accentué par la surface brillante d'un grès cérame de qualité, rectifié et coloré. Sur demande, ces différents dessins sont disponibles en compositions de sous-éléments de format 60x60, 30x120 ou 30x60 cm. Devis sur demande pour ce type de composition et de format.

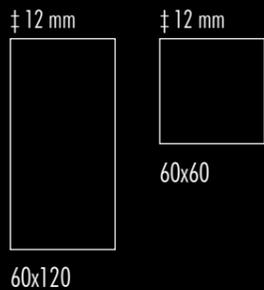

Die Grenzen des neuen Designs des Paradoxes werden mit dieser neuen Kollektion gesprengt: ICON. LASTRE IN GRES FINE PORCELLANATO CON MICRO CRISTALLI SQUADRATE E RETTIFICATE.

FINE PORCELAIN STONEWARE SLABS WITH MICROCRYSTALS SQUARED AND RECTIFIED.

Le lastre in ceramica a micro-cristalli sono realizzate con un granulo di cristallo unico. Resistente alle macchie al 100%, lo strato in vetro non assorbe l'acqua e le macchie, resiste a sostanze acide e alcaline ed è semplice da pulire. Dal tono risolutamente lucido, può essere ulteriormente lucidato per ottenere un effetto riflettente. Ad alta intensità, decisamente superiore rispetto al materiale lapideo. La particella di cristallo si fonde nella lavorazione o intarsio: la sua bellezza viene fissata nel supporto di base della giada nella patina lucidante. Applicato con una pressa da 7.800 tonnellate e sottoposto a una temperatura di 1.260° C, il granulo di cristallo conferisce bellezza e carattere, per un prodotto resistente all'accumulo di sporcizia, all'usura, sempre nuovo e fresco.

Micro crystal porcelain tiles applies unique crystal granule. 100% stain resistant. There is no water absorption for the glass layer. It does not absorb stains, resistant against acid and alkali, easy to clean up. Highly glossy: it can be polished to achieve mirror effect. High intensity: the intensity is much stronger than the stone material. Crystal particle melts the inlaying craft, imbed like beauty brilliantly on the base body of the jade in the glass. Pressed by the 7,800 tons pressure machine, burn by the high-temperature of 1,260 degrees Celsius, give it the beautiful concept and connotation, keeps the character of dirt-resisting and wear-resisting new and refresh.

LA COLLEZIONE PCEM CASSER RAPPRESENTA LA FEDELE RIPRODUZIONE IN GRES PORCELLANATO DELLA FINITURA SUPERFICIALE DEL CALCESTRUZZO CON PARTICOLARI REQUISITI ESTETICI. TRA LE FINITURE A FACCIA VISTA PIU CONOSCIUTE ABBIAMO PRESO IN CONSIDERAZIONE IL "FONDO CASSERO" OVVERO IL DISEGNO LASCIATO DALLE TAVOLE SUL CEMENTO. ABBIAMO RIPRODOTTO FEDELMENTE LA FACCIA A VISTA DEL MANUFATTO RILEVANDO IN MODO PRECISO IL TIPO DI LEGNO UTILIZZATO PER LE CASSEFORME E IL POSIZIONAMENTO DELLE TAVOLE ,TRAMITE IL QUALE È STATO POSSIBILE OTTENERE DISEGNI PIU DIVERSI, ESALTANDO LA PLASTICITÀ DEL MATERIALE. LA STRUTTURA DEL PCEM CASSER DERIVA DAL SUCCESSIVO DISARMO DELLE CASSEFORME CHE PONE IN EVIDENZA LA SUPERFICIE A VISTA DELLA STRUTTURA CEMENTIZIA.

THE PCEM CASSER COLLECTION REPRESENTS THE TRUE REPRODUCTION OF THE CONCRETE SURFACE FINISH IN PORCELAIN STONEWARE , WITH A SPECIAL ESTHETIC FEEL. WE HAVE CONSIDERED THE "FORMWORK SUBSTRATE" - NAMELY THE PATTERN LEFT BY THE TABLES ON CONCRETE - AMONGST THE MOST RENOWNED EXTERNAL FINISHES. WE HAVE TRULY REPRODUCED THE EXTERNAL FACADE OF THE PRODUCT ACCURATELY DETECTING THE TYPE OF WOOD USED FOR FORMWORKS AND THE TABLE POSITIONING, FORMING VERY DIFFERENT PATTERNS AND ENHANCING THE MATERIAL PLASTICITY. THE STRUCTURE OF PCEM CASSER COMES DIRECTLY FROM THE FOLLOWING RELEASE OF THE FORMWORKS POINTING OUT THE EXTERNAL SURFACE OF THE CONCRETE STRUCTURE.

Un modo sorprendente di esporre il marchio, il prodotto, i pilastri di quello che facciamo e di quello che vogliamo fare. Un senso straordinario di potenza.
Amazing way to showcase the brand, the product, the key pillars of what we do and what we are about. An extraordinary sense of empowerment.

La collezione PCEM - CASSER apre una nuova frontiera nella riproduzione del prodotto naturale in ceramica. Le lastre nel formato 60x120 cm di disegno disomogeneo si sposano grazie alla "familiarità" delle venature della vera essenza del legno inciso dalla pressione del cassero cementizio. Una contrapposizione grafica che viene accentuata dalla superficie cassetta naturale di un porcellanato di qualità rettificato e squadrato. Su richiesta il formato è disponibile per il taglio in diversi sottomoduli. Esempio: 30x120. Questa lavorazione viene quotata su richiesta.

The PCEM - CASSER collection opens a new frontier in the reproduction of the natural product in ceramic. Slabs sized 60x120 cm with nonhomogeneous pattern are combined thanks to the "familiarity" of the veins featuring the true essence of the wood carved by the pressure of the concrete formwork / quarterdeck. A graphical contrast that is further stressed by the natural formworked surface of a ground and squared quality porcelain stoneware. The size is available for the cut in different sub-modules upon request. Example: 30x120 cm. This manufacturing is quoted upon request.

Die Kollektion PCEM - CASSER sprengt die Grenzen der keramischen Reproduktion von Naturprodukten. Die 60x120-cm-großen Platten mit unregelmäßigem Muster erinnern an die echte Essenz der durch die Verschalung in die Fläche gepressten Holzäderungen — Schaltafel. Eine grafische Gegenüberstellung, die durch die natürlich geäderte Oberfläche des polierten und perfekt quadratisch zugeschnittenen Feinsteinzeugs erst richtig zum Ausdruck kommt. Je nach Bedarf kann dieses Großformat auch in kleinere Untermodule zugeschnitten werden. Zum Beispiel: 30x120. Fordern Sie am Besten ein Angebot für diese Bearbeitung.

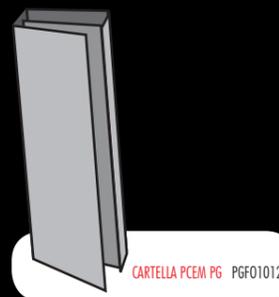

La collection PCEM - CASSER franchit une nouvelle frontière dans la reproduction en céramique du produit naturel. Les plaques de format 60x120 cm, au dessin irrégulier, se marient très bien ensemble, grâce à l'empreinte des veines de l'essence de bois utilisée pour le coffrage du ciment. Un décalage graphique accentué par la surface, en grès cérame de qualité (rectifié et carré), obtenue au contact du coffrage naturel. Sur demande, ce format est disponible coupé en sous-éléments. Exemple: 30x120. Devis sur demande pour ce type de fourniture.

La colección PCEM - CASSER abre una nueva frontera en la reproducción del producto natural de cerámica. Las placas en el formato 60x120 cm con dibujo no homogéneo encajan gracias a la "familiaridad" de las vetas de la auténtica madera tallada por la presión del encofrado de cemento.

Una contraposición gráfica que se acentúa con la superficie encofrada natural de un gres porcelánico de calidad rectificado y labrado. Bajo pedido, el formato está disponible para el corte en diferentes submódulos. Ejemplo: 30x120. Este trabajo se presupuesta bajo pedido.

PCEM CASSER è prodotta con la tecnologia del digitale che realizza da 8 (60x120 cm) grafiche diverse tra una lastra e l'altra.

PCEM CASSER is produced by digital technology which gives 8 (60x120 cm) graphic variations from one slab to another.

Per interpretare correttamente il prodotto naturale, Pietra Pece by Powergres è un prodotto "stonalizzato" e visualizza una gradazione cromatica che mostra una leggera — moderata differenza di tono delle singole piastrelle come non omogenee tra di loro. Per cortesia fate attenzione e visualizzate uno schema di posa per armonizzare al meglio le piastrelle tra loro prima della loro definitiva messa in opera a pavimento o rivestimento.

To reproduce as well as it is in the real nature, the Pietra Pece by Powergres is a shading product and has a visible chromatic gradations. It indicates a slight - moderate difference of tone of single tiles that are not homogeneous. Please consider it and attention must be paid to harmonizing the tiles by a pre visual schema before laying and final fitting the ceramic tiles on the floor or wall.

I listelli decori in pietra naturale iSTONE sono creati unendo, in maniera originale e tradizionale, le diverse pezzature di pietra a più colori o monocrome. Poiché la Collezione iSTONE Stoneware, propone un materiale completamente naturale, le pezzature di pietra che compongono il/i listello/i, possono avere delle differenziazioni di tono; per questo stesso motivo, non può assolutamente essere da noi garantito lo stesso tono per i diversi formati della medesima pietra, anche se parte di un unico ordinativo ed in occasione di riordini dello stesso codice e descrizione del codice prodotto relativo al materiale. Inoltre essendo realizzati in pietra naturale, le pezzature composte possono risultare imperfette nei bordi e presentare leggere differenze di spessore tra loro; (nella tabella potete vedere ad esempio lo spessore degli articoli che evidenzia spessori come: 15-25 mm) Per questa ragione, le dimensioni delle pezzature sul listello ed indicate sul listino, catalogo e web sono da intendersi come nominali. Queste caratteristiche, nel loro insieme, non sono da considerare come dei difetti, ma delle particolarità specifiche del prodotto iSTONE STONEWARE che partecipano ad evidenziare l'unicità, il valore e l'originalità della nostra proposta.

The decorating strips in natural stone iSTONE are created by joining the different stone sizes in several colours or in single shade in an original and traditional way. As the iSTONE Stoneware collection offers an entirely natural material, the stone sizes composing the strip/s can have different shades; for this same reason, we absolutely cannot guarantee the same shade for the different sizes of the same stone, even if included in a single order and when re-stocking the same code and product code description of the material. The composed sizes are realized in natural stone and therefore can have imperfect edges and little thickness differences (for example, the table specifies the thickness of the items such as: 15-25 mm). Thus, the size dimensions of the strip and indicated on price list, catalogue and web site are to be intended as nominal. These features are not to be intended as defects as a whole, rather as special characteristics of the product iSTONE STONEWARE that highlight the uniqueness, value and originality of our proposal.

LA COLLEZIONE ZEERA È UNA FEDELE ED INNOVATIVA INTERPRETAZIONE DEL MARMO NATURALE. LA ROCCIA ORIGINARIA CHE HA PORTATO AL MARMO BIANCO STATUARIO ERA UN CALCARE SIMILE A QUELLI CHE RITROVANO SULLE SCOGLIERE DEI MARI TROPICALI. IL NERO MARQUINA, SORPRENDENTE MARMO NERO SPAGNOLO DELLA BISCAGLIA È STATO REINTERPRETATO CON L'AGGIUNTA NELLA REALIZZAZIONE CERAMICA DI PICCOLE ED IRREGOLARI INCLUSIONI METALLICHE CHE CONFERISCONO ALLA VISIONE DELLA SUPERFICIE ANCORA PIÙ ELEGANZA ED OPULENZA. IL CABERNET BROWN GRANITO BRASILIANO CHE SI TROVA NELLE CAVE DEL NORD EST DEL BRASILE E'UN COLORE CALDO, ELEGANTE E CONTEMPORANEO.

ZEERA COLLECTION IS AN ACCURATE AND INNOVATIVE INTERPRETATION OF NATURAL MARBLE. THE ORIGINAL ROCK WHICH HAS LEAD TO THE BIANCO STATUARIO WAS A LIMESTONE SIMILAR TO THOSE FINDABLE ON THE CLIFFS OF THE TROPICAL SEAS. NERO MARQUINA, A SURPRISING SPANISH BLACK MARBLE OF BISCAGLIA HAS BEEN REINTERPRETED ADDING, IN THE CERAMIC REALIZATION, SMALL AND IRREGULAR METALLIC INCLUSIONS WHICH GIVE TO THE SURFACE MORE ELEGANCE AND OPULENCE. THE CABERNET BROWN, A BRASILIAN GRANITE FOUNDABLE IN THE NORTH-EAST CAVES IN BRAZIL, IS KNOWN FOR ITS ASPERITY AND FOR ITS PARTICULAR MASSINESS. A WARM COLOUR, ELEGANT AND CONTEMPORARY.

powertech

advanced clad&tech systems

Powertech-dove la tecnologia incontra la domanda.

Powertech offre una ampia gamma di soluzioni innovative e di design per involucri.

Powertech combinando la tradizionale tecnologia applicata alle avanzate conoscenze del settore propone esclusivi involucri e pavimenti galleggianti.

Dalle piu semplici lastre fino al piu sofisticato frangisole in gres porcellanato, Powertech rappresenta un punto di riferimento per gli architetti, gli ingegneri e costruttori a livello globale.

Non importa la dimensione o la portata del progetto, siamo bravi in quello che facciamo, ma soprattutto, lo staff di Powertech é in grado di fornire le piu immediate risposte, le migliori soluzioni innovative e le idee piu creative.

Grazie a un impianto di ultima generazione e ad una selezionata rete di fornitori, Powertech si presenta come un leader mondiale in disegno e tecnologia applicata.

Il meglio dell'estrusione di terracotta e del porcellanato convergono assieme in un solo marchio: Powertech.

Powertech grazie al suo impianto di ultima tecnologia puo produrre lastre in gres porcellanato fino a 1200x3000 mm.

La smaltatura digitale permette di realizzare superfici originali, alternative alle classiche proposte, dando un nuovo look e valore al mercato delle facciate.

Powertech produce sezioni di frangisole fino a 1800 mm di lunghezza dando agli architetti e progettisti una maggiore flessibilità nel design oggi maggiormente focalizzato sul risparmio energetico.

Il porcellanato offre il minore assorbimento d'acqua combinando alla migliore performance meccanica la resistenza ai fattori climatici.

Powergres da anni è tra i leader del settore della ceramica ad alto contenuto di design, promuovendo costantemente una forte innovazione di prodotto. L'originalità della sua creatività oltre ad essere accompagnata dalla tecnologia di ultima generazione propone ai propri clienti un prodotto di facile interpretazione e impiego.

Questa offerta di design si fonde ora con l'alta performance ingegneristica di Powertech, nuova divisione tecnologica di Powergres Group.

Di pari passo con il crescere delle richieste e delle esigenze di design architettonico, Powertech puo garantire adeguate, rapide e opportune risposte ad ogni nuova sfida.

Powergres fornisce una assistenza globale ad ogni singolo progetto e accompagna il progettista alla realizzazione di opere uniche.

advanced clad&tech systems

Powertech-where demand meets technology.

Powertech offers an inspirational range of technical cladding solutions.

Powertech manufactures to unsurpassed quality and engineered performance for rainscreens and raised access flooring combining traditional technology with new innovative solutions.

From a simple tile to a highly sophisticated porcelain sunscreen, powertech is regarded as a beacon for architects, engineers and developers globally.

No matter the size or complexity of the project, powertech staff will provide a prompt response, innovative solutions and creative ideas.

Supported by a state-of -the art high-tech facility and leading suppliers, powertech is becoming a world leader in design inspiration using cutting edge technology combining the best of both worlds of clay extrusion and porcelain-brought together in a single company, powertech.

For many years, powergres has been a leading tile design company providing its customers with exclusive products.

Now design demand meets engineered performance in powertech - the powergres group high-tech division.

Powertech offers a new approach to cladding products and systems.

as building design expectations rapidly develop, solutions must keep pace. powertech has a solution for every challenge.

The powertech staff makes it possible.

When size matters, powertech has the answer.

Powertech has a state of the art extrusion facility where porcelain tiles up to a maximum size of 1200x3000mm can be produced.

Digital glazing offers a creative deviation from the traditional range of tiles changing the face of the facade market.

Powertech produces sunscreen sections in lengths up to 1800mm providing architects with energy saving designs.

Compared to other materials, porcelain has the lowest water absorption along with the highest tensile strength to optimise ice and weather resistance and dirt retention.

It's imperative to create
a winning concept
in today's market,
saturated with competition,
to ensure your chances
of success.

We must make you aware
of your business's unique character,
to stand out among
the competitions.
