BRICKLANE

La ricerca trae ispirazione dalle facciate esterne e dagli interni di vecchi edifici industriali presenti soprattutto nei paesi anglosassoni o nel Nord America, realizzati con mattoni faccia a vista o tavelle in pietra e cotto.
Un prodotto versatile, disponibile in un'ampia gamma di formati per applicazioni a pavimento e rivestimento, capace di connotare gli spazi con un'estetica moderna ed essenziale o dal sapore vintage e ricercato.

This research is inspired by the external façades and interiors of old industrial buildings found above all in Anglo-Saxon countries and North America, in brickwork or stone and terracotta tiles.
A versatile product, available in a wide range of sizes for floor and wall coverings, adding a modern and essential flavour or a vintage, sophisticated appeal to any space.
