

JAPAN

The Japan collection is inspired by natural fibres and has been designed for minimalist spaces.

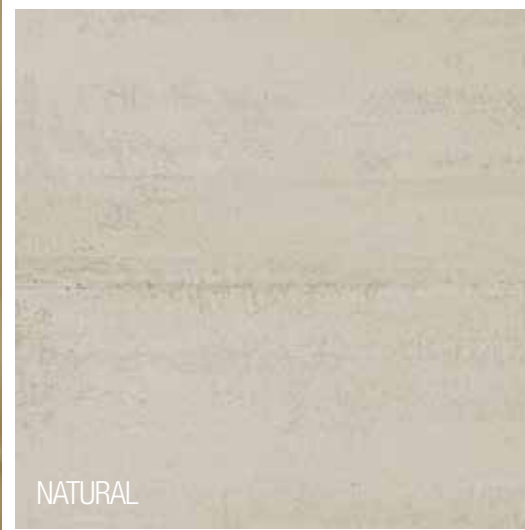

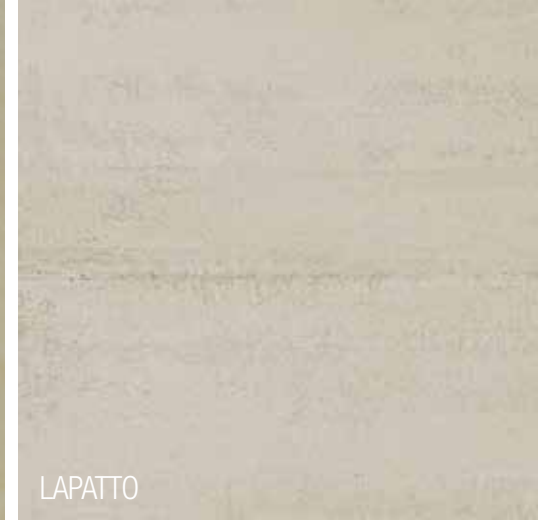

It is produced in glazed porcelain in an 80x80 cm size and is rectified. The last two qualities help to create a contemporary Asian style, the intention of this collection.

Japan is presented in two finishes, one lapatto, with a delicate look, and another one matt, providing a simpler look

LAPATTO

NATURAL

With the reference Tokyo, we add a very blended decoration of flowers, lines and geometries produced in one of the shades of the base. All this without compromising the minimalist spirit of this collection.
