ENTRANCE OF THE UNIVERSITY OF MEDICINE AND CATHEDRAL ST PIERRE, MONTPELLIER, FRANCE

WORNSTONE GRAY

1ST EDITION

WORNSTONE  
STONE

Esta piedra de aspecto gastado cubrió durante siglos los suelos de hermosas casas de campo -feudos "bastide" a las afueras de la región francesa de Montpellier. La serie Wornstone aporta a los espacios elegancia, distinción y autenticidad. Un estilo rústico a la vez que contemporáneo. Idóneo tanto en interior como en exterior, para prestar calidez a las fronteras del espacio.

This worn looking stone has covered the floors of charming "bastide" type country houses on the outskirts of towns in the French Montpellier region for centuries. The Wornstone series brings a touch of stylish distinction and authenticity to settings. Its rustic appearance, combined with a strong contemporary appeal, makes it perfect for use both indoors and out, where it infuses settings with a warm welcoming look.
