Déco Perlage

Déco Perlage è una collezione destinata a divenire una icona dello stile e della preziosità della casa gualdese.

È concepita pensando alla bellezza di tessuti preziosi, sfruttata ripetizione e sequenza di decori tratti dalla nostra tradizione ma li combina secondo rapporti e accostamenti di forte contemporaneità.

I motivi a griglia o floreali, si ripetono secondo pattern studiati per tratteggiate superfici che possono essere disegnate in modo ordinato o apparentemente casuali, l'unione di questa ricchezza visiva si unisce e fiorisce grazie alla combinazione con una gamma di colori che rimandano alla tradizione della materia ceramica più nobile. In queste combinazioni lampeggiano i blu, i rossi, i gialli, ma non mancano le nuances più tenui ed eleganti come i sabbia e gli oro. Tale ricchezza consente applicazioni eleganti e sobrie come pose invece più eclettiche e vibranti policromatiche.

L'effetto visivo si muove quindi tra la citazione di antichi pavimenti di ispirazione orientale e le tessiture aritmetiche generate da elaborazioni digitali.

Déco Perlage is a collection destined to become an icon of style and preciousness of the company house of Gualdo Tadino. It has been conceived thinking to the beauty of precious fabrics, exploits repetition and sequences of decors coming from our tradition but they are combined according ratios and matchings of contemporaneity. The grid and floreal motifs, are repeated according patterns studied to trace surfaces that can be designed in an orderly way o apparently casual, the union of this visual richness is combined and blooms thanks to the combination with a range of colours that remind the tradition of the most noble ceramic matter.

In these combinations are flashing the blues, the reds, the yellows, but there are a lot of delicate and elegant nuances as the sand and the gold ones.

Such richness allows elegant and sober applications as also more eclectic layings and vibrant polychromes. Therefore the visual effect moves from the quote of ancient floorings of oriental inspiration and the arithmethical textures generated from digital elaborations.
