

En el patio estamos frente a un Tejo, durante sus cinco mil años de existencia continúa su camino adaptándose al momento, fluyendo por la necesidad de perdurar y de este modo dejándonos el legado de su excelencia como especie. Estar en su presencia te cambia por completo.

*In the courtyard a yew tree stands proudly before us; for five thousand years it has continued on its way, changing with the times; fluidity provides a means of endurance, passing on a legacy rooted in the excellence of its species. Standing before it will change you forever.*
