

## Vezelay

Esta colección cerámica se compone de diferentes referencias hexagonales de carácter artesanal en formato 17x20 cm. Su relieve irregular combina con un acabado esmaltado brillante en sus bases, disponibles en 6 colores diferentes. Por su parte, las referencias decoradas como el caso de Vezelay Drawings, dibuja sobre una base blanca líneas de trazo manual en negro, representando diferentes formas que combinan entre sí. El decorado Vezelux, por su parte, ornementa las bases blancas con motivos dorados que se llevan al relieve. El decorado Vezelay Iris, resalta su esmaltado con 40 gráficas de efecto tornasolado. El especial hexágono decorado Vezelay Drops Blue hace un guiño a la decoración cerámica tradicional con su trazo artesanal en tonos azul cobalto sobre la base irregular blanca.

This tile collection is made up of several different 17x20cm hexagonal tile models, all with a handcrafted look. The field tiles combine an uneven surface with a glossy glaze in a choice of 6 different colours. The three sets of décors comprise Vezelay Drawings, with hand-drawn black lines on a white background, forming different patterns that can be mixed and matched; Vezelux, whose golden pattern and relief texture combine to perfection with the white field tiles; and Vezelay Iris, featuring a shot-effect glaze in 40 different versions. The special decorated hexagon Vezelay Drops Blue, winks at traditional tiles decoration with handmade draws in cobalt blue tones on white irregular bases.
