

Goah

River Stone

Incluido en el proyecto Peronda Fashion Lab, esta colaboración con el estudio de diseño integral 'Dsignio' revisa el concepto del canto rodado para crear una espectacular colección de encimera, espejo y lavabo de formas redondeadas y materiales nobles. Talladas en piedra de una sola pieza, tanto la encimera como el lavabo, están disponibles en tonos gris antracita y beige.

This initiative with the global design studio Dsignio formed part of the Peronda Fashion Lab project, in this case directed at reinventing the concept of round pebbles in a spectacular round-shaped countertop, mirror and washbasin collection, made of fine materials. Carved out of a single piece of stone, the countertop and washbasin are available in a choice of anthracite grey or beige.
