

MADE
in Elegance

A poco serve rinchiudere un artista in una piccola stanzetta
ed imporgli di realizzare capolavori di creatività:
l'ispirazione, così come l'estro, non si comanda.
Semplicemente arriva, e fugace com'è arrivata, se ne va.

There's no sense in closing an artist in a little room and
setting him to the production of masterpieces of creativity:
inspiration, just like talent, does not obey orders.
It simply comes and, as fleetingly as it arrives, it goes.

MADE

The Inspiration

Tutti i giorni traiamo ispirazione dalle materie che ci circondano, spesso ne percepiamo solo la loro singolarità, altre volte, invece, piacevolmente ci sorprendiamo a scoprirlne la loro inaspettata armonia.

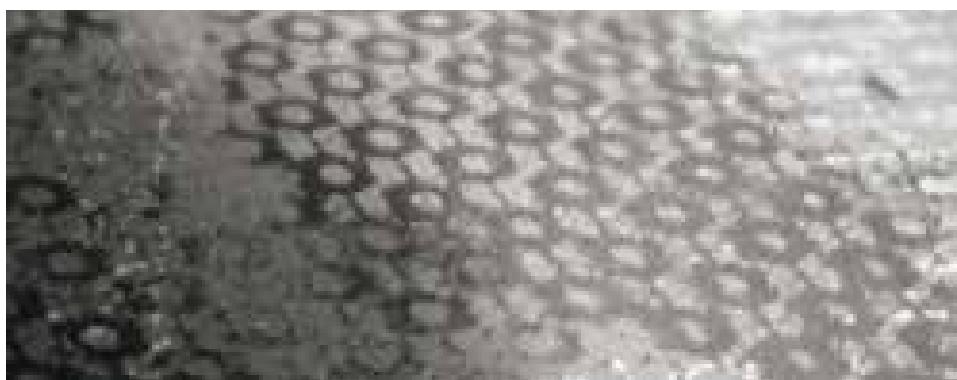

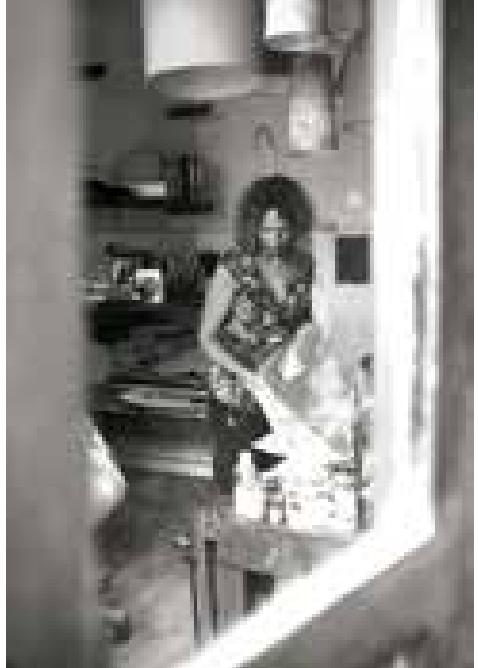

Tessuti e pizzi si sposano nel progetto MADE alla matericità del cartone e del cemento, creando un insolito legame dal piacevole risvolto.

Ne emerge un progetto ceramico ispirato all'eleganza e raffinatezza delle trame, in perfetta sintonia con lo stile più essenziale delle materie.

Every day we draw inspiration from the materials that surround us. Often we perceive only their singularity, while other times we pleasantly surprise ourselves by discovering their unexpected harmony.

In the MADE project, fabrics and lace are coupled with the texture of cardboard and concrete, creating an unusual bond of a pleasing secondary aspect.

What emerges is a ceramic project inspired by the elegance and sophistication of the wefts, in perfect harmony with the most essential style of the materials.

Come un'opera d'arte, MADE è il frutto di un ingegnoso lavoro artistico, connubio di creatività, passione e rigorosità. Ispirandosi a materie naturali come il cartone e a materie contemporanee come il cemento, in aggiunta ai pizzi e alle stoffe più tradizionali, si è voluto ricreare una superficie ceramica, originale e unica, proprio solo come un'opera d'arte può essere.

Like a work of art, MADE is the fruit of ingenious artistic work, a blend of creativity, passion and rigour.

Inspired by natural materials such as cardboard and contemporary materials like concrete, in addition to more traditional lace and fabrics, we aimed to recreate an original and unique ceramic surface, precisely as only a work of art can be.
