GRES PORCELLANATO

Innovazione tecnologica del prodotto e del processo produttivo. Ricerca estetica attenta al continuo processo evolutivo della moda, degli stili di vita e del design ma sempre fortemente motivata dal Made in Italy. A tutto questo si aggiunge un nuovo punto di forza per un ulteriore miglioramento estetico delle piastrelle reso oggi possibile dall'inserimento nel processo produttivo della tecnologia digital printing. Vi presentiamo Forge, nuova collezione in gres porcellanato creata da Cerdomus Ceramiche.

We're already known for our technological innovation – in our products and our production processes. And we're known for our aesthetic flair and a spirit that's open to ever-changing fashions, lifestyles and design – but always inspired by the Italian reputation for excellence. And now we're proud to present tiles that look more stylish than ever with the introduction of digital printing technology. Introducing Forge: the new collection of porcelain stoneware tiles from Cerdomus Ceramiche.
