lily

corallo

optical

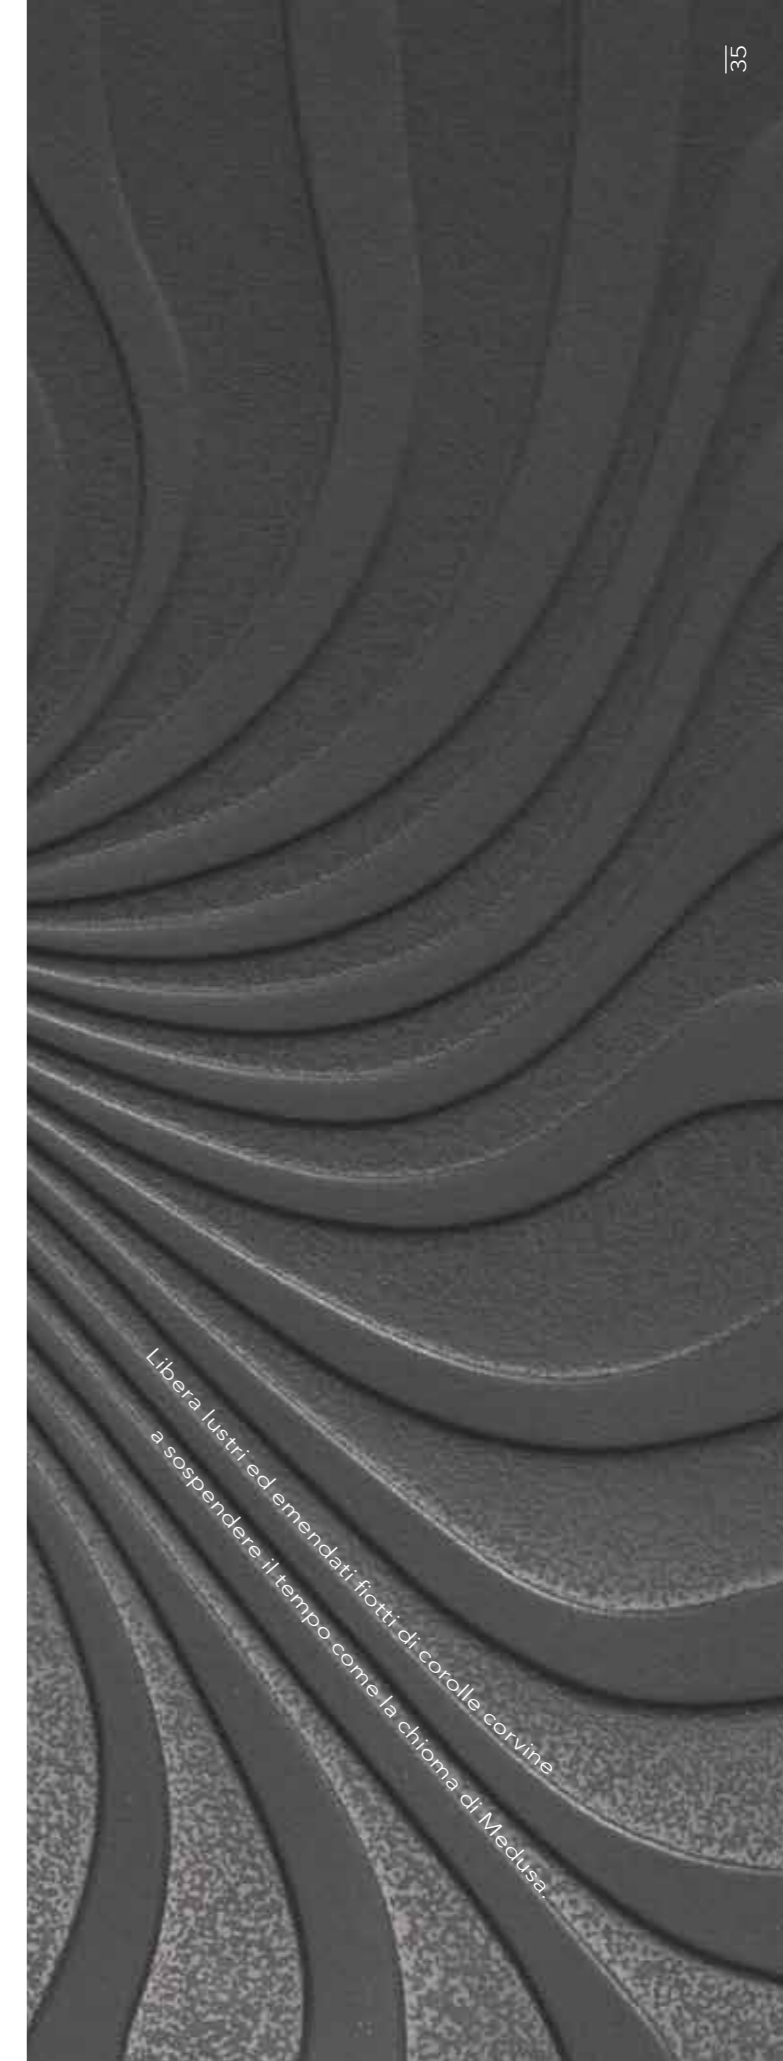

Agita piano nel blu più profondo  
le suadenti arabesche tratteggiate  
dall'ipnotico ondeggiare d'un anemone di mare.

Light blue against dark blue in beguiling arabesques,  
like the hypnotic undulation of a sea anemone's fronds.

*Libera iustri ed emendati: fotti di corolle corvine  
a sospendere il tempo come la chroma di Medusa.*

**carbone**

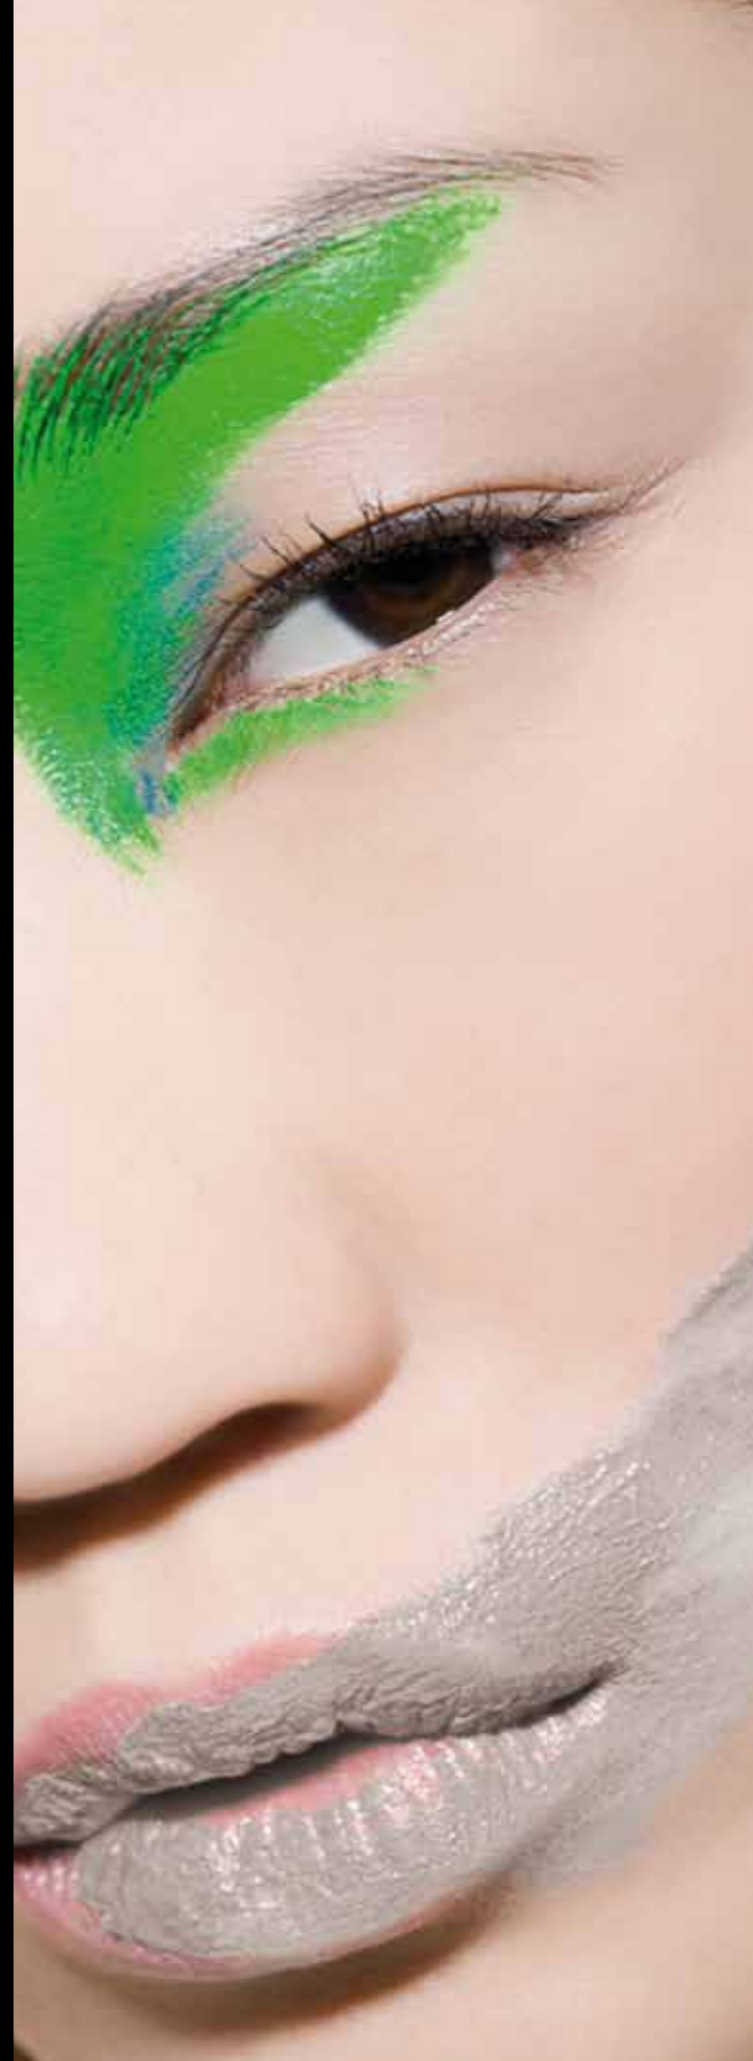

An eruption of lustrous raven-black corollas that freeze time like the hair of the Medusa.

madreperla

Irraggia tutt'attorno

tepalii malleabili sulle note d'una sinfonia

syncopata tra gradazioni limpide ed abbuiate.

Radiating petals that move to a sinuous melody

syncopated by darker and lighter gradations.

Fonde dimensioni pulite e rifinite dentro un morbido alveo  
di pallidi calici danzanti.

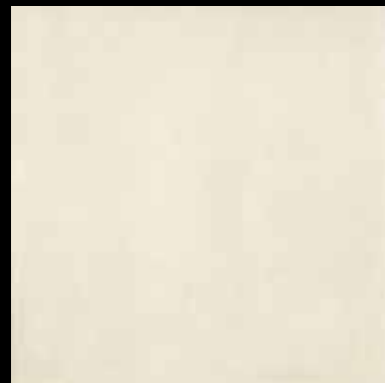

Depth and refinement  
in a soft bed of pale, stirring whorls.

*Accompagna intensi spazzi di vita mondana  
con la feratica purezza d'una diafana campanula.*

*Splashes of light and energy  
with the sacred and diaphanous purity of a flower.*
