RAK-CLOUD

The multiple faces of design

The new RAK-Cloud concept is the beginning of a collaboration with the Italian designer Giuseppe Maurizio Scutellà.

Fluid lines inspired by geometric swirls combined with changing shapes like clouds lend themselves to multiple interpretations and play with light, producing a soft enveloping effect, culminating in a sophisticated but at the same time functional and welcoming bathroom.

All this makes RAK-Cloud a concept with a soul, capable of telling a unique and inimitable story. Back to wall, or wall-hung sanitaryware, elegant freestanding bathtubs and washbasins, softly curved bowls or wall solutions for every need.

With RAK-Cloud, the hallmark of the Italian designer inspires and enhances the imagination of the most demanding and visionary interior designers to create beautiful bathrooms.

Nasce dalla collaborazione con il designer italiano Giuseppe Maurizio Scutellà il nuovo concept RAK-Cloud. Linee fluide ispirate da volute geometriche, forme mutevoli come nuvole che si prestano a molteplici interpretazioni e che giocano con la luce restituendo un effetto morbido, avvolgente, ideale per un ambiente bagno raffinato ma al tempo stesso funzionale ed accogliente. Tutto questo fa di RAK-Cloud un concept con un'anima, capace di raccontare una storia unica ed inimitabile. Sanitari a parete o sospesi, eleganti vasche e lavabi freestanding, morbide ciotole o soluzioni a parete per ogni tipo di esigenza. Con RAK-Cloud il tratto distintivo del designer italiano ispira e valorizza l'idea di bagno dei più esigenti e visionari interior designers.

Il naît à partir de la coopération avec le designer italien Giuseppe Maurizio Scutellà le nouveau concept RAK-Cloud. Lignes fluides inspirées par des méandres géométriques, formes mutables comme les nuages qui se prêtent à des interprétations multiples, et qui jouent avec la lumière, en restituant un effet doux et exaltant, idéal pour les salles de bains raffinées, mais à la fois fonctionnelles et accueillantes. Tout cela fait de RAK-Cloud un concept doté d'une âme, capable de raconter une histoire unique et inimitable. Objets sanitaires au mur ou suspendus, baignoires élégantes et lavabos freestanding, cuvettes légères ou solutions au mur pour tout genre d'exigence. Par RAK-Cloud, le trait distinctif du designer italien inspire et valorise l'idée de la salle de bains des designers d'intérieur les plus exigeants et visionnaires.

"Nace de la colaboración con el diseñador italiano Giuseppe Maurizio Scutellà el nuevo concepto RAK Cloud (nube). Lineas fluidas inspiradas de volúmenes geométricos, formas cambiantes como nubes que se prestan a múltiples interpretaciones y juegan con la luz dando un efecto suave y envolvente, ideal para un ambiente de baño refinado pero al mismo tiempo funcional y acogedor. Todo esto hace de RAK cloud un concepto con alma, capaz de contar una historia única e inimitable. Sanitarios a pared o suspendidos, elegantes bañeras y lavamanos independientes. Suaves cuencos a soluciones a pared para cada tipo de exigencia. Con Rak cloud el trato de distinción del diseñador Italiano valoriza la idea del baño de los más exigentes visionarios de los diseñadores de interiores."

Aus der Zusammenarbeit mit dem italienischen Designer Giuseppe Maurizio Scutellà entsteht das neue Konzept RAK-Cloud. Fließende Linien, inspiriert durch geometrische Wendungen, wechselnde Formen, wie Wolken, die zu zahlreichen Interpretationen verführen und mit dem Licht spielen, wobei sie eine sanfte und mitreißende Wirkung erzeugen, ideal für raffinierte und doch funktionelle und einladende Bäder. All das macht aus RAK-Cloud ein Konzept mit Seele, das fähig ist, eine einzigartige und unnachahmbare Geschichte zu erzählen. Sanitäre Wand- oder Hängeobjekte, elegante Badewannen und freistehende Waschbecken, leichte Badeschalen oder Wandlösungen für jeden Anspruch. Mit RAK-Cloud inspiriert und valorisiert das Unterscheidungsmerkmal des italienischen Designers die Badidee der anspruchsvollsten und visionärsten Innendesigner.

Начало сотрудничества с известным итальянским дизайнером Джузеппе Маурицио Скутелла ознаменовано выходом новой революционной концепцией RAK-Cloud. Плавные линии, пронизанные геометрическими завитками и меняющие свои очертания как облака, дают множество форм и игру света, создавая эффект мягкого обволакивания, кульминацией которого является изысканная, но в то же время функциональная и уютная ванная комната. Всё это делает концепцию RAK-Cloud живой, обладающей душой, способной рассказать уникальную и неповторимую историю. Приставные или подвесные унитазы, отдельностоящие элегантные ванны, умывальники с мягко изогнутыми краями или настенные решения позволяют удовлетворить потребности каждого. RAK-Cloud, отличительный знак итальянского дизайнера, поражает воображение и вдохновит самых требовательных и прогрессивных дизайнеров на создание красивых ванных комнат.

Design

Giuseppe Maurizio Scutellà

Giuseppe Maurizio Scutellà was born in Alcamo, Sicily. His collaboration with RAK Ceramics begins with RAK-Cloud (2018), a project that continues the creative thinking of the Italian designer and that integrates perfectly with his other projects such as the collection of lamps “Pirce” by Artemide (Good_Design 2008, Red Dot Award 2009, IF Design Award 2010) and the “Metropolis” collection of crystal and ceramic tables by Tonelli Design.

“I like to talk with the soul of all my projects, discover its history and capturing the most hidden hues of its character, respecting its nature and embracing its languages. It is my way of approaching its magical essence and becoming its interpreter”.

Rimless technology

RAK Ceramics delivers the ultimate in technology for bathroom suites. Based on similar design specifications to sanitaryware in hospitals and medical centres, RAK Ceramics Rimless water closets allows you to experience the same high standards of hygiene in your own home.

RAK Ceramics continues to set new standards of hygiene and water efficiency in the sanitaryware industry, with uniquely engineered water flushing systems that effectively remove waste, helping to keep bathrooms fresh and hygienic.

WATER SAVING

Using just 4 litres for the full flush and 2.5 litres for the half flush, water usage is reduced by a third.

HYGIENIC AND EASY TO CLEAN

The water closets have no rims to harbour germs, making cleaning quick, easy and more hygienic.

SILENT FLUSH

Rimless technology allows a faster and more silent flush.

EFFICIENT DESIGN

Design and efficiency can be successfully combined. Water flows vertically and horizontally, before flushing the entire inner surface of the bowl, without splashing.

Hidden fixation systems

Our wall hung and back to wall products are benefitting of the collaboration with Fischer Group, one of the industry leaders. The use of the most innovative Fischer fixing systems, is allowing us design freedom on the ceramic, better aesthetics and more safety for the installer.

The Hidden Fixation System is comfortable and time saving, in fact one-man installation is made possible by the clip system that keeps the ceramic held up during the installation.
