

# KANVAS

**Il prodotto prende ispirazione dalla finitura di pareti in cemento intonacate dove sono evidenti i segni di passaggi successivi di rulli e spatolature “rigate” mischiati a garze di tessuto.**

**L'effetto è quello di una superficie morbida, lievemente materica, raffinata ed essenziale per un utilizzo a pavimento e rivestimento.**

This product is inspired by the finish of plastered concrete walls, which clearly show the signs of the subsequent passages of paint rollers and brush stripes, mixed with gauze.

The effect is that of a soft, slightly textured surface that is both refined and essential, for use in both floor and wall tiling.
