Rect. Crossland Blanco 59,1x119,1 / 23"x47" · Deco Crossland Blanco 45x90 / 18"x35"

Crossland es la nueva colección que se suma a la familia de las piedras. Se trata de una cuarcita de extrema elegancia natural, con unas cristalizaciones perladas, desarrolladas con materia digital, que afloran como escarcha de hielo entre sus estratos ondulados, truncados, paralelos, apretados unos contra otros, mostrándonos un registro de los cambios climáticos que la han generado. Se complementa con un concepto de piedra excavada, surcos direccionalles que reproducen la belleza del trabajo manual artesano. Se presenta en tonalidades claras, Blanco y Almond, y un Gris de matices intermedio.

Crossland is the latest collection to be added to the family of the stones. It is a quartzite of extremely natural elegance, with digitally developed pearlescent crystallization, that comes to the surface like frost between its undulating, truncate and parallel strata, cramped to one another, showing a register of the climate changes that have generated it. It is complemented with a carved stone concept, directional grooves that reproduce the beauty of the handmade artisan work. It is available on light tonalities: white, almond and an intermediate shade grey.
