A REVOLUTIONARY BATHROOM FURNITURE CONCEPT

Dinamici e trasformisti, nella loro pulizia formale i singoli elementi possono essere combinati tra loro in un gioco di incastri e forme, per dare vita a composizioni uniche e innumerevoli tipologie di accessori. Si potrà così dar vita a combinazioni originali e personalizzate: dalla classica mensola porta oggetti ad elementi specifici come i porta sapone e i porta spazzolini, per un bagno che porta all'estremo il concetto di personalizzazione.

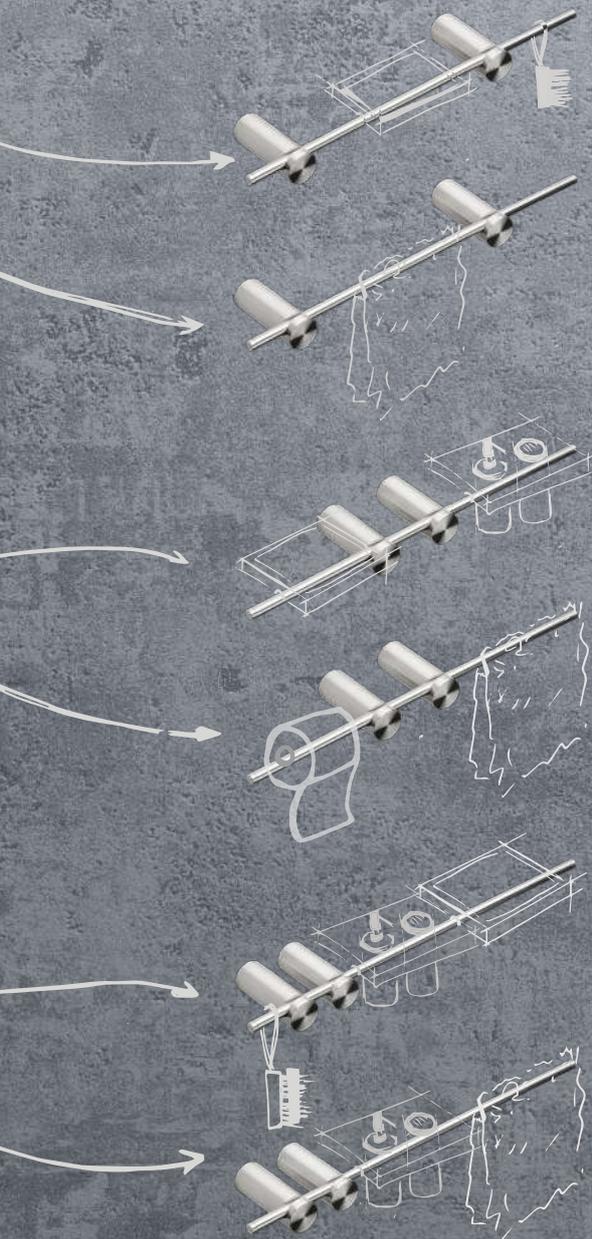

Dynamic and trasformable, with their clean design, the individual elements can be combined with each other in a game of joints and shapes, to create unique compositions and countless types of accessories. In this way you can create original and personalized combinations: from the classic shelf for objects to specific elements such as soap dispenser and toothbrush holders, for a bathroom that brings the whole concept of personalization.

Dynamiques et modifiables, dans leur minimalisme les éléments individuels puissent être combinés entre eux dans un jeu d'encastrement et formes, pour donner vie à combinaisons uniques et nombreuses types d'accessoires. On pourra donc donner vie à des combinaisons originales et personnalisées: à partir de l'étagère traditionnel porte-objets à des éléments spécifiques comme les porte-savons ou porte-brosse à dents, pour une salle de bain qui conduit à un concept de personnalisation extrême.

Dinámicos y cambiantes, con sus formas limpias, cada componente puede ser combinado en un juego de uniones y formas, para dar vida a composiciones únicas y a incontables tipos de accesorios. Se podrá así dar vida a combinaciones originales y personalizadas: desde el clásico estante hasta elementos específicos como la jabonera y el porta cepillo de dientes, para un baño que lleva al extremo el concepto de personalización.
