DESIGN PLUS <sup>2007</sup>  
NOMINATION DESIGNPREIS <sup>2008</sup>

La forma 'primitiva' a catino, richiama alla memoria l'immagine di antiche fonti. Geo è una collezione che reinventa il progetto sul piano tipologico. Queste vasche, grazie a linee estremamente particolari ed uniche, sono in grado di conferire un carattere speciale ad ogni tipo di ambiente, ricreando un'atmosfera quasi mistica.

The 'primordial' basin-shape reminds ancient fonts. Geo is a collection of products that reinvents different types of design. Thanks to unique and innovative shapes, this product is able to give a special and pleasant atmosphere to every kind of environment, creating like a mystic and really evocative ambience.

GEO 180 È DISPONIBILE NELLE VERSIONI FILO PIANO, INCASSO E FREE STANDING.  
GEO 180 IS AVAILABLE IN THE FLUSH FLOOR VERSION, IN THE BUILT-IN VERSION OR IN THE FREE STANDING VERSION.

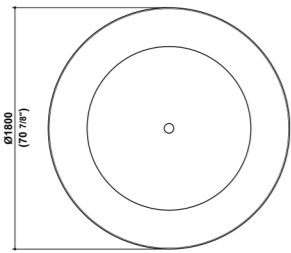

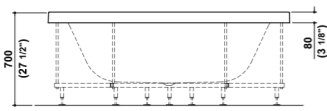

SEPPUR PROGETTATE IN DIMENSIONI CONTENUTE, GEO 170x70 E GEO 180x80 DEDICANO ALL'ACQUA UNO SPAZIO AMPIO E CONFORTEVOLE: IL LORO INGOMBRO SI RIDUCE GRAZIE ALL'ASSOTTIGLIARSI DEI BORDI, CHE, COME UN NASTRO SOTTILE, DEFINISCONO I LIMITI DELLA VASCA STESSA.

ALTHOUGH THEY HAVE BEEN DESIGNED UPON A SMALLER SCALE, GEO 170x70 AND GEO 180x80 HAVE DEDICATED A LARGE AND COMFORTABLE SPACE TO WATER. THEIR SIZE SEEMS SMALLER THAN IT ACTUALLY IS IN REALITY DUE TO THEIR SLIM EDGES THAT, MUCH LIKE A THIN RIBBON, DELINEATE THE VERY EDGES OF THE TUB.
