

GROHE EUROSMART

Create a kitchen that the whole family can take pleasure in with the new GROHE Eurosmart. Effortless control, unrivalled performance and temperature-safe operation combine in a sleek contemporary design.

GROHE EUROSMART

MAKE THE SMART DESIGN CHOICE

Eurosmart has more features than ever before. The easy exchange mousseur lets you install or remove it to clean limescale with just a coin. Separate inner water ways guarantee that the water inside the faucet never comes into contact with lead or nickel. You'll also find that our optional variant with GROHE SilkMove® ES cartridge supplies cold water only when the lever is in the central position, which saves energy because water is not heated unnecessarily. Add to that an integrated temperature limiter that can be individually set to your desired maximum temperature and you'll understand why Eurosmart puts unbeatable functionality in your hands.

Lead and nickel free: separated inner water ways
Isolated inner water ways guarantee water has no contact with lead or nickel

EasyExchange mousseur
The mousseur is easy to install and de-install using just a coin

GROHE cartridge with integrated temperature limiter
Can be individually set to the desired maximum water temperature.

GROHE SilkMove® ES
Optional new cartridge technology which supplies cold water when the lever is opened in the central position.

GROHE EUROSMART

The solid cylindrical body, the elegant curve of the spout – the new Eurosmart range looks great while offering huge versatility. In a variety of two heights, with a useful swivel spout and the option of our water-saving GROHE EcoJoy feature or the energy-saving cold-start cartridge GROHE SilkMove® ES, the new Eurosmart is bound to fit in with your busy family kitchen.
