

HEXAGON

Hexagon, a collection that is a fresh and youthful approach in the world of ceramics. A 15x20.2 coating that becomes a decorative resource in itself thanks to its shape and colour scheme.

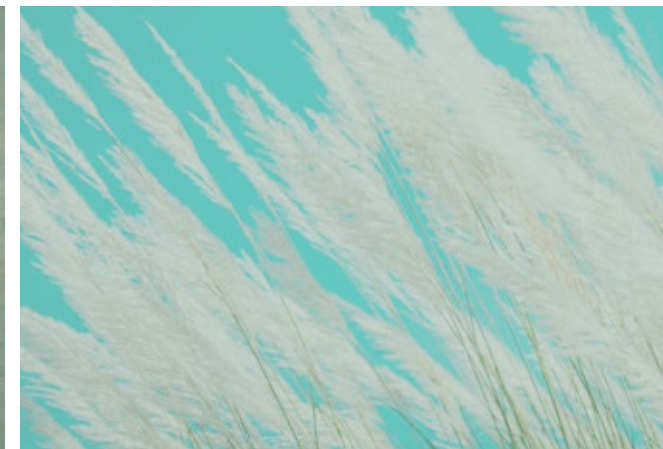

A style that fits perfectly with basic furniture and spaces with a slightly retro look.

The colour palette of this series, with gloss finish, is huge. Neutral tones like Grey, Graphite or Black coexist with bright colours like Purple, Aquamarine or Red.

A style that fits perfectly in basic furniture and spaces with a slightly backward-looking aesthetic.
