

Jurassic

60x120 24"x48" · 120x120 48"x48"

Tan exótico como su nombre, este mármol supone un antes y un después para el interiorismo. Una piedra elegante, elaborada al detalle, con un dibujo muy pétreo y profundidades. A su color primigenio, el black, con ligeros toques oxidados, se le añaden las tonalidades Grey y White, buscando ampliar las posibilidades cromáticas y matéricas del material. Disponible en acabado mate y pulido, éste último añade a la propuesta un exquisito efecto espejo.

Esta serie se completa con un decorado geométrico para revestimiento que logra el efecto papel pintado en dorados. Una trama con polígonos dorados entrelazados idónea para rincones estratégicos y Accent Walls.

As exotic as its name, this marble will create a profound change in your interior. An elegant and elaborately detailed stone with a stone-like pattern and depths. The original black, with light oxidised touches, has been joined by the Grey and White shades to increase the chromatic possibilities. Already available in matt and polished finishes, we have since added an exquisite mirror effect.

The series is completed with geometric decorations for flooring creating a stunning gold-painted paper effect. Weaving gold throughout, this series is ideal for focal points and accent walls.
