**La stonizzazione fra piastrella e piastrella non costituisce difetto, ma è volutamente realizzata per impreziosire l'effetto finale della pavimentazione.**  
The shading differences between each tile should not to be considered a defect, this have been purposely manufactured in order to create an attractive natural finish for your floor.  
Les différences de tonalité entre les carreaux ne sont pas de défauts, mais la volonté d'enrichir l'aspect final du carrelage.  
Farbschwankungen von Fliese zu Fliese stellen keinen Nachteil dar, sondern sind bewusst geschaffen worden, um dem fertigen Bodenbelag einen wertvolleren Effekt zu geben.

**I formati 15x30 e 15x15 sono ottenuti dal taglio di un preinciso.** The 15x30 and 15x15 sizes are obtained by cutting a pre-cut tile.
