Lame rette, compatte e di grande spessore tagliano l'uniformità della parete, concepiscono una nuova idea di scaldasalviette con cui animare e disegnare la parete del bagno. La forma, insolita e assolutamente inattesa, sorprende come una scultura.

Des lames droites, compactes et très épaisse qui fendent l'uniformité des murs, pour une nouvelle idée de sèche-serviettes avec lesquels animer et dessiner les murs de la salle de bains. La forme, insolite et tout à fait inattendue, surprend comme une sculpture.
