

LAMINA

LAMINA: una nuova piastra radiante ultra sottile e rigorosa, in cui minimalismo ed eleganza sono ottenuti nascondendo sul retro valvole e sfato permettendo però di regolare la valvola termostatica e quella del ritorno; i collettori sono previsti in colore bianco per integrarsi al muro.

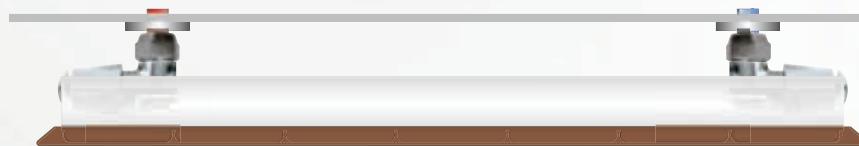

LAMINA : une nouvelle plaque chauffante ultra fine et rigoureuse, minimalisme et élégance obtenus en cachant les vannes et le purgeur arrière mais possible les régler; les tubes arrière sont en couleur blanc pour s'intégrer au mur.

LAMINA: a new very thin and rigorous radiant plate, minimalism and elegance obtained by hiding valves and air vent, but can be adjustable; the manifolds are white in order to be fitted to the wall.

design Luigi Brembilla

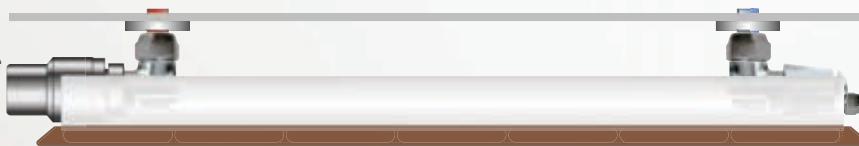

Valvola comando laterale sul retro del radiatore
Robinet commande latérale à l'arrière du radiateur
Side control valve on the back of the radiator
