

monza

For the past couple of years, the ceramic sector has opted for simpler cut designs. In this context arises Monza.

Monza is a collection inspired in cement polished by the passage of time. This is a smooth matte 28x85 coating collection with a contemporary look that goes well with 44.7x44.7 flooring.

This series is complemented with a great quantity of decoratives manufactured using a printing system that achieves unique decoratives at incredible prices. Simple elegant graphics coatings both realist and faded. Unresponsive to the concept of “seasonal fashion” but rather basic and timeless pieces.
