

nashville

20 x 75

The new collection, Nashville, redefines the bounds of what is possible by adding softness and comfort with its colours and prints which in turn create a great atmosphere. They have unequalled brightness defined by quartzite, making it an innovative and different product.

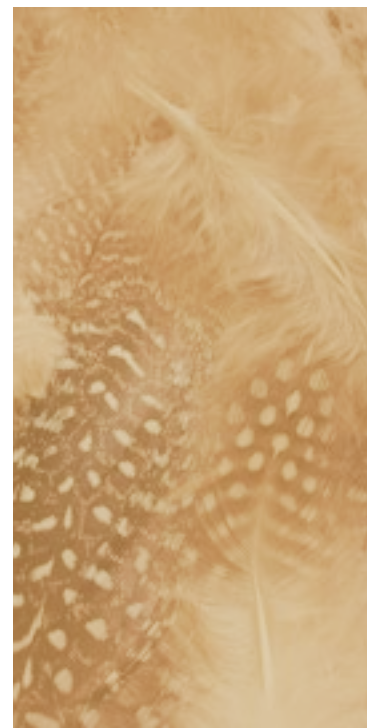

Design and comfort are the guidelines to choose a good ceramic tile and this collection arrives at the right time in the right place. We invite you to enjoy this wall tile which is manufactured in an exclusive size and with the most avant-garde InkJet technology.

Nashville will let your seemingly impossible designs and your ideal settings come true. It makes the impossible become possible. It breaks against all odds by varying purity and homogeneity with a baroque decorated piece, such as the Decor Chester and it breaks with polished tiles and goes for horizontality with the Decor Pratty. There are nine brand-new designs in up to four colours, all different from the others.
