40x40 20x40 20x20 10x10 10x30

Ispirandosi alla collezione di oggettistica, Cerasarda presenta le esclusive ceramiche OT07026 declinandole in una esclusiva gamma cromatica che enfatizza il legame d'origine con il territorio. Dalla cruda essenzialità dell'entroterra sardo, agli aspri e incontaminati territori della Barbagia fino all'incontro con le atmosfere marine delle coste e la limpidezza del cielo, OT07026 sottolinea quei contrasti che da sempre caratterizzano l'isola grazie, anche, all'utilizzo dei caratteristici smalti vetrosi da cui traspare l'essenza della materia ceramica.

Taking inspiration from the collection of furnishing items, Cerasarda presents the exclusive OT07026, offering them in an exclusive colour range emphasizing the links with their land of origin. From the raw, essential quality of the Sardinian hinterland to the rugged, uncontaminated areas of the Barbagia, right down to the marine atmospheres of the coasts and the clear blue sky, OT07026 highlights those contrasts that have always been the main feature of the island, thanks, too, to the use of the characteristic vitreous glazes that allow the essence of the ceramic material to show through.

Inspiré de la collection d'objets, Cerasarda présente les céramiques exclusives OT07026 en les déclinant dans une gamme de couleurs unique qui souligne le lien d'origine avec le territoire. De l'essentialité naturelle de l'arrière-pays sarde aux territoires sauvages et intacts de la Barbagia jusqu'à la rencontre avec les atmosphères marines des côtes et la clarté du ciel, OT07026 souligne les contrastes qui caractérisent depuis toujours l'île à l'aide, notamment, des émaux vitreux typiques d'où se dégage l'essence de la matière céramique.

Von der Kollektion von Gegenständen inspiriert, präsentiert Cerasarda die exklusiven Fliesen OT07026 in einer exklusiven Farbpalette, die die ursprüngliche Bindung zu diesem Gebiet unterstreicht. Von der Kargheit des sardischen Hinterlandes über die rauen und unberührten Gebiete von Barbagia bis hin zur Begegnung mit der marinen Atmosphäre der Küsten und der Klarheit des Himmels - OT07026 unterstreicht die Kontraste, die seit jeher die Insel kennzeichnen, auch dank der Verwendung der charakteristischen glasartigen Glasuren, die das Wesen des Keramikmaterials offenbaren.
