

EL EXOTISMO DE PARADISE BALI

THE EXOTIC NATURE OF PARADISE BALI

Inspirándonos en la piedra de Bali de precioso color verde esmeralda y un patrón sutilmente irregular, hemos creado este diseño en gres porcelánico que aportará una atractiva belleza natural y un acabado exótico al diseño de la piscina. Disponible para el vaso de la piscina en formato de 625x310x10 mm. Se pueden buscar varias combinaciones para la coronación de la piscina y la playa o para las dos.

Taking inspiration from the lovely emerald green colour and subtly irregular pattern of Bali stone, we have created this porcelain stoneware design to bring attractive natural beauty and an exotic finish to swimming pool design. Available for pool interiors in 625x310x10 mm format.

Various combinations can be created for the pool coping and the pool surround, or for both. The White Stone or Grey designs from the Evolution Series and the Taiga design from the Madera Series are fine examples.
