La cuarcita es una de las rocas metamórficas más reproducidas del mundo. Recogemos su esencia y aspecto original para generar con Quartzite un porcelánico apto tanto para interior, incluidas las zonas más exigentes; como para exterior.

Hemos trabajado su estética fundamentándonos al 100% en la naturaleza. Con una gran destonificación, cada pieza parece haber sido extraída de un lugar de la cantera. Piedras iguales pero diferentes que conviven en armonía y que se presentan en acabado White y Grey, como fiel representación de la cuarcita blanca, y en Multicolor, una revisitación de la cuarcita natural roja. Sofisticación pétreo donde cada pieza es única.

Quartzite is one of the world's most widely reproduced metamorphic rocks. We infuse its essence and original look into Quartzite, a porcelain suitable for both interior and exterior spaces.

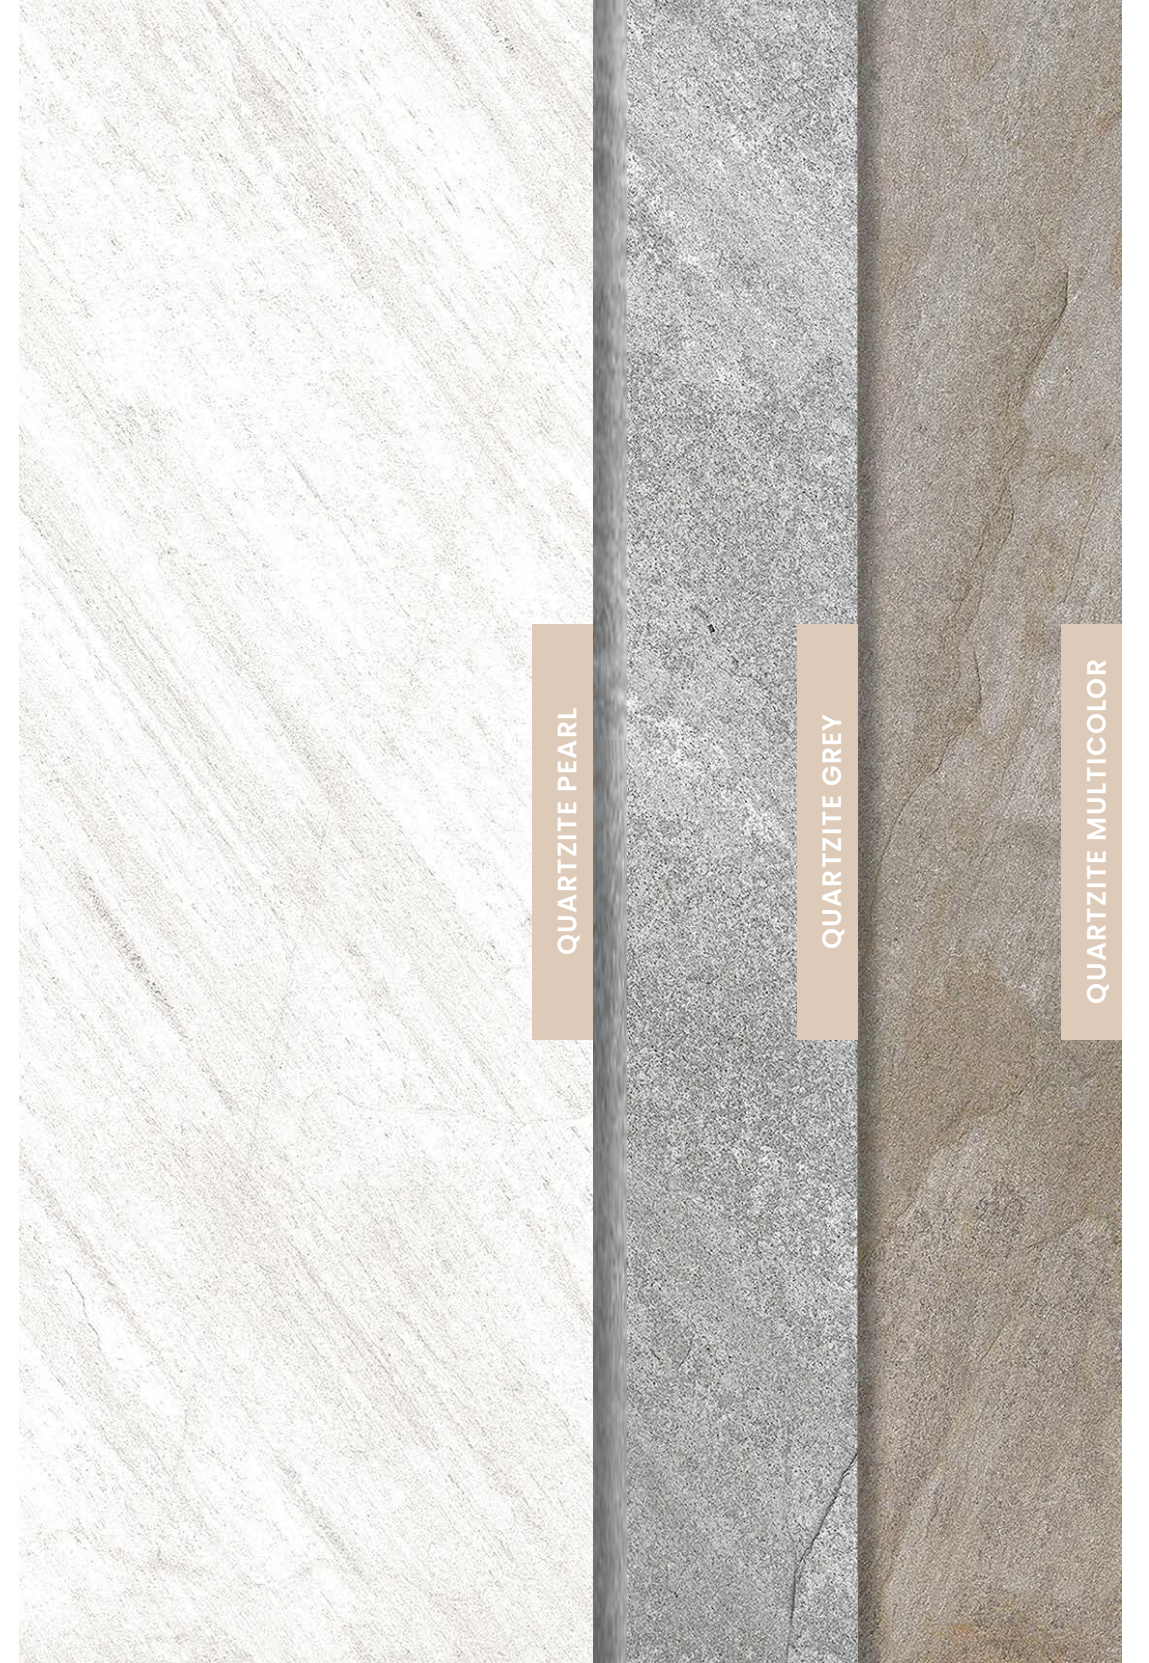

We have worked on its aesthetic, taking inspiration from nature at every turn. These distressed colours look like they come straight from the quarry. Stones that are equal but different and coexist in harmony in White and Grey finishes, as a faithful representation of white quartzite, and in Multicolor, inspired by natural red quartzite. Sophisticated stone where each piece is one of a kind.
