*Design senza compromessi
per sculture da bagno*

Frozen

DESIGN —
UFFICIO TECNICO

Design senza compromessi per sculture da bagno. Una collezione che vince la sfida: produrre un ambiente dalle forme interamente squadrate, ottenute grazie a una lavorazione di altissimo rigore.

Difficile trovare altrove linee così forti, angoli così precisi. Facile immaginarli in una casa o in un progetto. Perché questa collezione tocca la perfezione e la cristallizza nel gusto più attuale.

Design without compromise for bathroom sculpture. A collection which rose to the challenge of creating an interior with completely irregular shapes, and won hands down. Extremely high quality fabrication and finish are the secret. It's not easy to find such harsh lines, such precisely angled edges. It's easy, though, to foresee Frozen in a house or interior... because this collection just about approaches perfection, with a completely modern twist.

Design sans compromis pour des sculptures de salles de bain. Une collection qui gagne le défi : produire une ambiance aux formes complètement carrées, obtenues grâce à un travail d'une très haute rigueur. Il est difficile de trouver autre part des lignes aussi fortes, des angles aussi précis. Facile de les imaginer dans une maison ou dans un projet. Parce que cette collection touche la perfection et la cristallise dans le goût le plus actuel.

Eine Badezimmerkollektion in kompromißlosem Design und konstanter Materialqualität. Frozen kann ein Ambiente mit komplett eckigen Formen schaffen, die dank strengster Bearbeitungskriterien erfüllt werden.

Kaum wird man eine andere so überzeugende Kollektionen finden, welche durch kräftige Linien und präzise Ecken besticht. Leicht ist diese Kollektion zu Hause oder in Ihren Entwürfen vorstellbar, denn sie ist greifbare Perfektion und bringt dies in moderner Sprache zum Ausdruck.

Бескомпромисный дизайн для скульптуры ванной комнаты. Коллекция, бросающая вызов: создать окружение с квадратными формами, достигнутыми благодаря обработке высокой сложности. Трудно найти где-либо такие же сильные линии, такие же четкие углы. Легко представить их в доме или проекте. Поэтому данная коллекция затрагивает совершенство и кристаллизует его в настоящий вкус.
