Referring to everything related to the sun, the French word "solaire" defines also the quality attributed to those who are capable to illuminate the space around with their own presence. SOLAIRE Tiles embody this quality, aiming to create a constant dialogue between light and ceramics inspired by materials often used in architecture. Different textures and patterns, series of dots in low relief play all together with a range of colours and finishings, interacting with the evolution of light. As a result, shadows and reflections cast vibrations and movements, altering the perception of a surface that contrasts with the natural features of the ground.

Referida a todo lo relacionado con el Sol, la palabra francesa "solaire" define también la calidad atribuida a aquellos que son capaces de iluminar el espacio con su propia presencia. La colección SOLAIRE encarna esta cualidad, con el objetivo de crear un diálogo constante entre la luz y la cerámica. Diferentes texturas y patrones, prints en bajo relieve que juegan con una amplia gama de colores y acabados, siempre interactuando con la evolución de la luz. Como resultado, las sombras y los reflejos emiten vibraciones y movimientos, alterando la percepción de las superficies que contrastan con las características naturales del terreno.
