Ampliamos uno de nuestros *best sellers* con efecto madera, inspirado en la más elegante de las maderas y originaria de Canadá, la Tuya. Como complemento a los tres colores base de Soleil, surge un relieve geométrico de composición muy moderna que se distingue por sus teselas de madera en patrón, juego de volúmenes y efecto luces vs. sombras.

Geometría abstracta en el punto neurálgico de la decoración.

We are extending one of our best-selling ranges with a wooden effect inspired by the elegant Thuja wood from Canada.

In addition to the three base colours in the Soleil range, we have added a modern geometric relief, distinguished by its mosaic patterns in the wood, playing the light and shadow against each other.

Abstract geometry at the very heart of the design.
