

STRATOS

_2017

design

Mario

Ferrarini

Le linee nette e le geometrie rigorose del volume esterno si addolciscono nella morbida fluidità del bacino. Stratos è una commistione di due anime che si integrano in modo elegante in un'immagine armonica, è un perimetro rigido che esprime sicurezza e solidità proteggendo una superficie organica che si sviluppa al suo interno e si estende senza soluzione di continuità.

Una forma scultorea, un volume idealmente scavato dalla forza primordiale dell'acqua. Stratos è un lavabo realizzato in Flumood, il materiale brevettato da antoniolupi, e disponibile nella forma quadrata o rettangolare in due diverse altezze (12,5 e 18,8 cm). Stratos può essere appoggiato su un piano o sospeso a parete.

The sharp lines and the rigorous external geometrical shapes are softened with the fluidness of the internal shape of the basin. Stratos is a mixture of two souls integrated in an elegant and harmonious manner. Its rigid perimeter expresses safety and solidity protecting an organic interior that extends without interruption.

A sculptural shape, a volume ideally dug from the primordial force of water. Stratos is a washbasin made in Flumood, material patented by antoniolupi, and available in a square or rectangular shape in two different heights (12,5 and 18,8 cm). Stratos can be top mounted or wall mounted.
