Studio Gris 15x90 / 6"x35" · Studio Gris 32x62,5 / 13"x25"

El cemento armado de la colección Studio reclama su lugar en los interiores actuales como material en bruto, simple y atractivo, frente a lo perfecto, pulido y brillante. El diseño de este cemento encofrado configura espacios súper naturales, con superficies de belleza cruda pero amable. Es un diseño rotundo con un gran trabajo de bordes dedicados a los relieves que remarcan cada listón, disponible en tres tonos, Blanco, Gris y Marengo. Se añade un cuarto tono Paint como color singular, con restos de pintura blanca sobre la base gris del encofrado. La serie se complementa a nivel decorativo con una base de cemento crañado, como rayado con un alambre creando surcos longitudinales que crea una atmósfera de fresca brutalidad.

The reinforced concrete of the Studio collection claims its place among the contemporary interiors as a brute, simple, and attractive material against the perfect, the polished, and the shiny. The design of this concrete formwork creates some extremely natural spaces, with surfaces showing a crude but kind beauty. It is a categorical design where a great effort was put to the edges, with reliefs stressing each strip. It is available in white, grey, and dark grey. A fourth, "paint" tonality, is added as a singular colour, with white paint leftovers over the grey base of the formwork. The series is complemented on a decorative level with a scratched concrete base, as if it had been scraped with wire creating longitudinal grooves that provide a fresh brutality.
