FLAVIKER
CONTEMPORARY ECOCERAMICS

Flaviker's WIDE collection consists of tough yet lightweight porcelain slabs with a thickness of just 7 mm and a record size of 160x320 cm produced using the revolutionary CONTINUA+ technology. The new pressing system involves dry compaction of raw materials and is able to produce surfaces that combine excellent aesthetic quality with outstanding technical performance.

CERAMIC R-EVOLUTION

Il progetto WIDE Flaviker parte dalla rivoluzionaria tecnologia produttiva CONTINUA+, che permette di produrre lastre in gres porcellanato robuste e leggere allo stesso tempo, grazie allo spessore ridotto di 7mm, fino alla dimensione record di 160x320 cm. Il nuovo sistema di pressatura prevede la compattazione a secco delle materie prime e consente di ottenere superfici particolarmente apprezzabili sia per la qualità estetica che per le performance tecniche.

Otto colori di grande personalità estetica, dai “classici” marmi a varietà più rare e decorative, per una nuova interpretazione originale e non omologata di questo materiale dal fascino senza tempo.

WIDE
SUPERSIZE SLABS
COLOURS

Available in eight colours with powerful aesthetic appeal, from classic marble to rarer and more decorative varieties of stone, it offers a highly original interpretation of this timeless material.

COMPOSIZIONI DECORATIVE DECORATIVE COMPOSITIONS

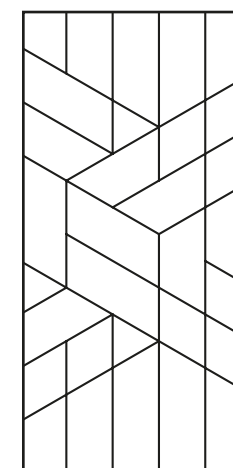

Con un occhio attento alla decorazione di interni, FLAVIKER propone composizioni grafiche realizzate a idrogetto sulle lastre ceramiche in 7 mm. Le fughe, se esaltate con stucchi a contrasto, diventano motivo decorativo. Questi soggetti sono disponibili nel formato 120x240 cm, oppure adattabili a qualsiasi misura richiesta con il servizio ON DEMAND. Il cliente dovrà fornire le esatte dimensioni della superficie da rivestire; verrà poi realizzato un disegno esecutivo con relativo preventivo. Ogni singolo pezzo che compone il soggetto verrà numerato in modo da facilitare le operazioni di posa. Fuga tra i diversi pezzi 2 mm.

With a keen eye for interior decoration, FLAVIKER offers design compositions created from waterjet-cut 7 mm thick ceramic slabs. Contrasting coloured grout can be used to enhance the joints and create a decorative pattern. These designs are available in 120x240 cm slabs or can be adapted to surfaces of any size using the ON DEMAND service. The customer will need to provide the exact dimensions of the surface to be tiled, after which a detailed drawing and quote can be made. Each piece making up the design will be numbered for ease of installation. A 2 mm joint will be maintained between the individual tiles.

CERAMIC R-EVOLUTION

Il progetto WIDE FLAVIKER parte dalla rivoluzionaria tecnologia produttiva CONTINUA+, che permette di produrre lastre in gres porcellanato robuste e leggere allo stesso tempo, grazie allo spessore ridotto di 7mm, fino alla dimensione record di 160x320 cm. Il nuovo sistema di pressatura prevede la compattazione a secco delle materie prime e consente di ottenere superfici particolarmente apprezzabili sia per la qualità estetica che per le performance tecniche.

FLAVIKER's WIDE collection consists of tough yet lightweight porcelain slabs with a thickness of just 7 mm and a record size of 160x320 cm produced using the revolutionary CONTINUA+ technology. The new pressing system involves dry compaction of raw materials and is able to produce surfaces that combine excellent aesthetic quality with outstanding technical performance.

WIDE & STRONG

WIDE è perfettamente idoneo sia per il rivestimento che per la pavimentazione, in ambito residenziale e commerciale. Lo spessore 7 mm consente di mantenere un'ottima resistenza al carico di rottura reale.

WIDE is ideal as both a floor and wall covering in residential and commercial projects. The 7 mm thickness enables it to maintain excellent breaking strength in real situations.

CARICO DI ROTTURA BREAKING STRENGTH

FLAVIKER 9 mm = 1.662 newton
FLAVIKER 7mm = 1.587 newton
Altri 6 mm = 1.166 newton

PESO WEIGHT

FLAVIKER 9 mm = 19,5 Kg x mq
FLAVIKER 7 mm = 17,5 Kg x mq

NEW DIMENSIONS

Uno degli obiettivi del progetto WIDE è quello di fornire un materiale ceramico tecnologicamente avanzato facilmente utilizzabile in contesti anche molto diversi, per dimensione e per destinazione d'uso. WIDE è un vero e proprio programma di formati, tutti rettificati, pensati per coprire a 360° le esigenze legate alla progettazione, a partire dagli spazi residenziali, fino alle grandi opere in ambito pubblico e commerciale.

One of the aims of the WIDE project is to supply a hi-tech ceramic material that is easy to use in very different sizes and applications. WIDE comes in a large selection of sizes, all rectified, ideal for uses ranging from residential through to large-scale works in public and commercial spaces.

EVERYWHERE YOU LIKE

Tenendo conto delle principali qualità del materiale, tra cui la robustezza, la resistenza agli sbalzi termici, oltre allo spessore contenuto e alla facilità di lavorazione, le grandi lastre WIDE ampliano la destinazione d'uso del gres porcellanato. Sempre meno fughe e sempre più spazio alla creatività di progettisti e interior designers, che grazie ai prodotti WIDE possono apprezzare la versatilità di una ceramica senza più confini.

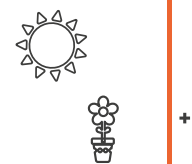

Taking account of the material's key qualities, including strength, thermal shock resistance, low thickness and ease of working, the WIDE large-size slabs extend the fields of use of porcelain. The WIDE collection has fewer joints while giving enormous creative freedom to architects and interior designers, who appreciate the versatility of this ceramic surface without limits.

I pezzi speciali, per effetto delle lavorazioni, possono presentare variazioni di tonalità. Due to working process, special trims may show variations in tonality. L'unità minima di vendita per tutti gli articoli (fondi, decori e pezzi speciali) è la scatola completa. The minimum sales quantity for all items (plain tiles, decorations and special trims) is one full box. I dati relativi agli imballi sono aggiornati al momento della stampa del catalogo e pertanto possono subire variazioni nel corso del tempo. Data referring to packaging have been update at time of printing; the actual data may be slightly different.
