

COLLECTION SYSTEM

Si le robinet est le bijou de la salle de bain, Arik Levy l'a voulu, non pas à son image uniquement, mais personnalisable par chacun.

L'idée créative de l'appropriation fait partie de l'identité de l'artiste - « la création est un muscle incontrôlé ». Comme dans toutes les œuvres d'Arik Levy, la collection « System » porte un message inspirant, incitant chacun à choisir sa propre collection de robinetterie en jouant avec les matériaux et les finitions.

Pour la première fois, THG Paris s'associe à un artiste, dont le message transcende le design.

If the tap is the gem of the bathroom, Arik Levy does not want each gem to solely reflect his image, but rather to be customisable by its owner.

The creative idea of appropriation is part of the artist's identity—“creation is an uncontrolled muscle”. Like every other piece by Arik Levy, the System collection carries an inspiring message, which encourages each individual to choose their own tap collection by playing with materials and finishes.

For the first time, THG Paris is collaborating with an artist whose message transcends design.
