VOGUE GRANDE

Style and Statement

"VOGUE" evokes the perception of high fashion with style;
"GRANDE" suggests the superiority of size and its magnificence.

Vogue Grande Collection is haute couture, dominating interior design and architecture landscape with elegance and style, making a bold statement. It is the complete language for a new way to live and feel, one powered by individualism and the courage to embrace the uniqueness!

The inspiration of the tiles in this collection characterize between marble designs and Mother Nature, an exceptional boldness that instantly elevates the tone of any room to a luxurious architecture, cutting it for the generation that has fallen in love with self-expression.

Vogue Grande Collection makes a coherent reference of elegance and timelessness thus creating a bespoke look for every space, defining uniqueness and the philosophy of life.

* Refer to test report for specific test result.

Each different tile series are produced to meet different performance requirements. For specific product technical performance, please request from Niro Granite sales team, their agent or distributor.

Colour Variations: Since the colour reproduction in this printed piece will vary from the actual tile colours, final selection should be made from tile samples. Colour, shade and glaze variations may exist due to the inherent characteristics of porcelain tile.

Due to the low porosity of porcelain tiles, an Improved High Performance Cementitious adhesive in accordance to BS/EN 12004 & ISO 13007-1 is highly recommended for proper installation. Products that meet this standard are available amongst leading adhesive manufacturers. Please seek expert advice from adhesive manufacturers for proper selection and application.

SHADE VARIATION

UNIFORM FROM TILE TO TILE
The range of colours and tones within the same shade is relatively uniform from tile to tile. There is minimal to no difference among pieces from the same production run.

SLIGHTLY NOTICEABLE FROM TILE TO TILE
The range of colours and tones within the same shade is slightly noticeable from tile to tile. There are clearly distinguishable differences in design texture or pattern with similar or slight change in colour tones.

MODERATELY NOTICEABLE FROM TILE TO TILE
The range of colours and tones within the same shade is moderately noticeable from tile to tile. There are clearly distinguishable differences in design texture or pattern.

DISTINCTLY NOTICEABLE FROM TILE TO TILE
The range of colours and tones within the same shade is distinctly different from tile to tile. Random colour and design texture differences can be seen from tile to tile. One tile may have totally different colour from another tile. Final installation can be unique.
