Silhouet. Tap into your style

Silhouet is slim, Scandinavian to its core and, quite simply, stunning. The design is available in both classic and touchless taps, seven beautiful colour variations and a complete Collection of bathroom accessories. You can easily combine superior functionality with materials, colours and accessories that reflect your style and the ambience you want in your home.

Meet the
designers

Halskov og Dalsgaard

The award-winning Danish industrial designers, Christina Halskov and Hanne Dalsgaard, helped Damixa bring Silhouet to life. The duo's work is deeply rooted in the Scandinavian design tradition and integrates aesthetic and functional design.

The goal with Silhouet was to create a simple, modern and appealing series of taps and mixers, Christina Halskov explains: "The tap, whether for the kitchen or the bathroom, is a functional object as well as a design element in modern homes. We wanted to create a series of genuine, no-nonsense taps, which are a pleasure to use in everyday life and will last for a very long time, both in terms of design and quality."

Silhouet Shower System
Product No.: 57954.61
Finish: Matt Black

With its pure inviting design, Silhouet fits beautifully in the kitchens and bathrooms of today as well as tomorrow. For the bathroom, Silhouet comes in five different heights to ensure that you can use it with a tall, tabletop mounted vessel sink. The stylish Silhouet shower system features a showerhead which, due to its ultra slim design, appears to hover for an even more sophisticated look. Silhouet is the essence of timeless Danish design and outstanding Danish Damixa quality.

Silhouet Touchless Kitchen Mixer
Product No.: 74062.79
Finish: Brushed Brass (PVD)

Silhouet Touchless Kitchen

The kitchen is the heart of the home, and the tap plays a central role. With Silhouet Touchless, you get both touchless and classic tap functionality in one stylish solution. If, for example, you have just marinated meat or carved a chicken, simply place your hand near the sensor and you can wash your hands without touching the tap and spreading bacteria to the next user. If you need to fill a pot of water, or want the water to run continuously as you peel potatoes, you can use the handle as you would on a classic tap.

Unique features

Ceramic cartridge, 8 l/min aerator, Swivel spout, 120° swivel limitation, Rub clean, Eco Save, Anti Scalding and Touchless.

Product No.: 74062.79
Finish: Brushed Brass (PVD)

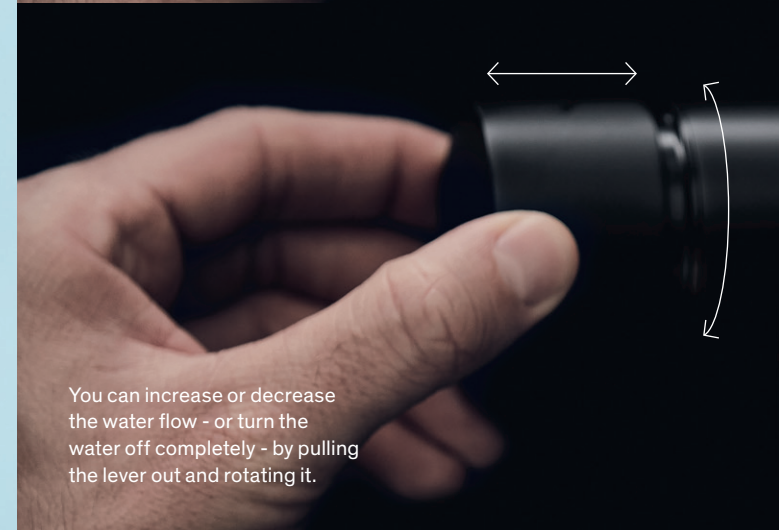

Product No.: 74062.00
Finish: Chrome

Product No.: 74062.61
Finish: Matt Black

You can adjust the temperature by rotating the lever.

You can increase or decrease the water flow - or turn the water off completely - by pulling the lever out and rotating it.

Silhouet Touchless gives you the advantages of both regular taps and touchless technology.

Silhouet Touchless Basin Mixer
Product No.: 74022.00
Finish: Chrome

Silhouet Touchless Basin

You will have seen touchless taps in e.g. airports and institutions. You typically only use these sinks to wash your hands, which means that a single fixed setting of temperature and water flow is enough. With Silhouet Touchless, we have succeeded in combining touchless technology with a user-friendly design, where the functional top can be used to control the flow of water and switch between hot and cold.

Unique features

Ceramic cartridge, 6 l/min aerator, Rub clean and Touchless.

A close-up photograph of a modern chrome faucet installed on a white ceramic sink. The faucet has a sleek, cylindrical design with a single-lever handle and a curved spout. The background features a wall of glossy, rectangular pink tiles. Above the tiles, a portion of a silver mirror with a scalloped edge and floral patterns is visible. To the right, a shower head with black beads and a brown cord hangs on the wall. In the foreground, a purple glass with white polka dots holds a toothbrush, and a small blue dish with a bar of soap is partially visible.

Silhouet Unique functions

TOUCHLESS

The water flow is activated when your hand or any other object is placed in front of the sensor located below the spout. This allows you to operate the water tap touchless, which is both convenient and hygienic. Once the hand is removed the water flow is stopped, which saves water and eliminates unintended waste of water.

ANTI SCALDING

Limits the movement of the tap head/lever to prevent accidental selection of "full hot" water.

ECO SAVE

Saves water without compromising comfort. Activated and adjusted in the ceramic cartridge.

RUB CLEAN

Easy removal of limescale from taps and shower heads without tools or chemicals. Simply rub a finger against the rubber surface to remove the limescale.

ECO CLICK

Designed to save water. You will feel a subtle resistance when opening the tap to avoid operation at full flow. Simply click past the point of resistance for more flow.

COLD START

Opens for cold water only when the lever is in starting position. Reduces unnecessary consumption of heated water and saves energy.

Technique behind our Matt White

UV resistant surface

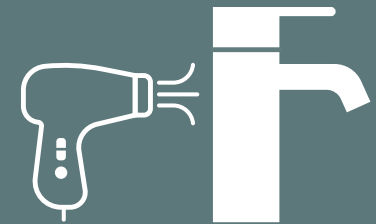

1. Primer

2. Powder Coat

3. Hardening

The finished product

Silhouet Matt White is minimalism in its purest form. The matt white surface makes the shape and details stand out clearly.

Make no mistake about the delicate exterior; the powder coating is durable, hard-wearing and surprisingly easy to clean. The surface is UV resistant, so the tap will not turn yellow from sunlight, but remain as good as new.

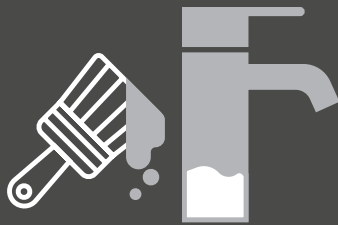

Silhouet Touchless Basin Mixer Public
Product No.: 74020.61
Finish: Matt Black

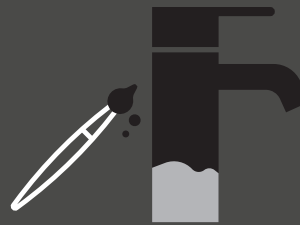

Technique behind our Matt Black

Anti-fingerprint surface

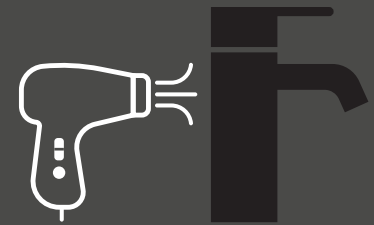

1. Primer

2. Top Coat

3. Hardening

The finished product

Matt black is beautifully minimalistic with its downplayed dark presence, in perfect contrast with the modern look of many kitchens and bathrooms. The matt black surface won't fade over the years and is resistant to dirt and greasy fingerprints.

Primer is used as a base layer for adhesive and black colour. Top lacquer gives the matt appearance, and it is this layer which gives the hard, resistant and anti-fingerprint surface.
